Pershing Says U.S. Could Have Prevented War

FRANCE'S ACTION MAY WRECK CONFERENCE

PERSHING URGES
ARMY INCREASE

U. S. With Preparation and
Strong Leadership Could
Have Prevented War

Failure to Recognize Jealousy
Among Nations Proved
Disastrous

WASHINGTON, April 25.—The United States, "with adequate military preparation and under strong leadership," could have prevented the occurrence of the world war, Gen. Pershing declared today in testifying before the senate military committee in behalf of the war department's plan for an increase in the military establishment over that proposed by the house.

WEEKS PLEADS
FOR BIG ARMY

Says 115,000 Enlisted
Strength "Below the Safe
Minimum Requirements"

Urges Force of 13,000 Officers and 450,000 Men in
Regular Army

WASHINGTON, April 25.—The 115,000 enlisted strength army bill passed by the house provides a military structure "below the safe minimum requirements" of the nation, Secretary Weeks told the senate appropriations committee today in urging that appropriations for the next fiscal year permit a force of 13,000 officers and 450,000 men to be maintained in the regular army. Should the house proposals prevail, he added, not only would the regulars suffer, but overseas garrisons would be "inadequate" and the development of "citizen components of our national defense system" would be seriously checked.

\$500 FOR DEATH OF SON

Verdict Awarded William J.
Hunt in Superior Court
This Morning

After being out a little more than one hour, a superior court jury today awarded William J. Hunt of this city, \$500 for the death of his son, George T. who was killed when a machine in which he was driving collided with one operated by John E. Mills, the defendant in the case. Hunt brought suit to recover \$10,000. The accident happened one night last June near the junction of Westford and Smith streets. According to the plaintiff's contention, he was driving a machine across Smith street, on Westford, when the defendant came out of Smith street and crashed into him. Young Hunt died in a local hospital 20 hours after the accident.

NOTICE

Bishop Delany Assembly, Fourth Degree, Knights of Columbus, Meeting Tonight at 8 o'clock, to take action on death of our late brother, Sir Knight Edward Cawley.

DUBLIN, April 25. (By Associated Press).—Brigadier General Adamson, commanding the Athlone brigade of the regular Irish republican army, was shot dead today near the headquarters of the Independent Republican forces in Athlone.

COUNCIL WILL CONSIDER
LOAN ORDERS TONIGHT

The city council at its special meeting tonight, will have two important loan orders to consider, one in the sum of \$20,000 for the purchase of the First street oval property from the Locke and Canale and the other in the sum of \$10,000 for the development of Anna street as a parkway. Favorable action on each is forecasted.

MIXED FRESH PORK
AND FRESH FOWL

Dr. Forster H. Smith, superintendent of the Isolation hospital, stated today that the order slip for fresh pork being held up in the mayor's office because of a price of 35 1/2 cents per pound, should not have been made out for fresh pork, but for fresh fowl; just what was ordered and just what was received.

He explained further by saying that fresh fowl at 25 1/2 cents was ordered along with pork loins, but through a clerical error somewhere, pork loins were written on one order blank and fresh pork on the other. The fresh pork order should have read "fresh fowl."

Casimiro Almeida Shot in
Back of Neck, Near Jenckes
Mill, Pawtucket

Shooting Followed Alleged
Attempt to Stop Worker
Going to Mill

PAWTUCKET, R. I., April 25.—Casimiro Almeida, a picket, was shot in the back of the neck by Deputy Sheriff Lewis near the plant of the Jenckes Spinning company, today, after it is alleged, Almeida had attempted to stop a worker going to the Jenckes mill. Almeida was taken to the hospital where it was said his wound was dangerous.

DISCUSS REVISION OF
BUILDING ORDINANCE

Methods to be employed in the revision of the present building ordinance for Lowell were discussed at length this noon at the rooms of the chamber of commerce by men representing the fire prevention committee of the chamber and a special committee from the Lowell Contractors' association, sitting as a joint committee in revision.

AGREEMENT WITH
GRANITE CUTTERS

CONCORD, N. H., April 25.—Lapierre Brothers, operators of one of the smaller stone sheds and granite quarries here, today signed an agreement with the local branch of the Granite Cutters' union for a wage scale of \$1 an hour and a 44-hour week. This statement was made by Secretary George Evans of the Concord branch of the union.

Seaplane, With Six Aboard, Missing

KEY WEST, Fla., April 25.—The commercial seaplane Santa Maria, which left here Monday at 6.10 a. m., for Nassau with six persons aboard, including a woman, has not arrived at its destination and naval seaplanes of the Atlantic squadron left here early today to search for it.

Unwise for Tourists to Go to China

TOKIO, April 25.—(By the Associated Press)—It is unwise for tourists to go to China, owing to disturbed military conditions there, Jacob Gould Schurman, the American minister at Peking said today, in a message to Americans here who had asked his advice. The Japanese foreign office does not believe reports that the lives of foreigners in China are endangered.

Baltimore Nurse on Trial for Murder

MONTROSS, Va., April 25.—Miss Sarah E. Knox, Baltimore trained nurse, went on trial here today charged with murdering Mrs. Margaret Eastlake at Colonial Beach last September. Among those expected to testify is Roger R. Eastlake, a naval petty officer and husband of the dead woman, who was indicted jointly with Miss Knox for the murder but was acquitted at a separate trial here last December.

STRIKERS AT CITY HALL

Demand Manchester Mayor
Give Reasons for Failure
to Attend Conference

MANCHESTER, N. H., April 25.—Between 100 and 200 members of the United Textile Workers' locals of this city marched in a body to the city hall here today to demand of Mayor George E. Trudel his reasons for not attending the conference of New Hampshire mayors held in Dover yesterday at which plans were formulated to break the textile deadlock.

AGREEMENT WITH
GRANITE CUTTERS

CONCORD, N. H., April 25.—Lapierre Brothers, operators of one of the smaller stone sheds and granite quarries here, today signed an agreement with the local branch of the Granite Cutters' union for a wage scale of \$1 an hour and a 44-hour week. This statement was made by Secretary George Evans of the Concord branch of the union.

ANNIVERSARY WEEK AT B. F. KEITH'S THEATRE

Thirty-three years ago in Boston, in a little playhouse that seated less than 400 persons, B. F. Keith launched his maiden vaudeville effort. That was the beginning of the Keith family business of today, with circuits that embrace every principal city in the United States and Canada. This is anniversary week in every Keith show house and the Lowell theatre is dressed up with flags and bunting of the national colors in celebration of the arrival at the third-of-a-century milestone.

Thirty-three years ago a Punch and Judy show was a tophunter today acts of great magnitude and brilliance are called "big time." The evolution of the vaudeville type of entertainment has been thorough and rapid. It has been tremendous in scope, too. Operating expenses at the first Keith house in Boston, the Old Gaiety, amounted to \$334 per week. Now operating expenses in vaudeville theatres in the country top \$2,000,000 a week. There were 14 theatres at the first Keith house, today there are upwards of 40,000. In like progression every detail of the business has grown to become a system almost incomprehensible and difficult to describe except by the employment of figures.

What has all this to do with this week's show at Keith's in Lowell? Just this. In fitting observance of its 33rd anniversary, the local management is offering a program of rare excellence, entirely commensurate with the best style and quality of vaudeville of today.

In first place on the bill are Jay Dillon and Betty Parker, assisted by Marie Lehr. In "No-Noses of Now." It is a summered-down musical comedy, rich in new things put over in a new way. Songs, dances and comedy, beautiful stage setting and most attractive lighting effects are some of the act's attributes. Enough, you say. Yes, it has everything a good act ought to possess.

It would be unfair to demand any more from an act than is given by Charles Harrison, Sylvia Dakin and Billy Hughes. Their prologue is in vaudeville style, but this week gives away to the modern dress and music. Special scenery again is a feature here. They call their presentation "The Three of Us" and it has been cleverly thought out and is just as cleverly demonstrated. Its measure of applause was full to overflowing last night.

Excellent ventriloquism and whistling, with mimicking thrown in just for the sake of versatility, are some of the things done well by Arthur Artill, assisted by Owen Fontaine. His scene is the barnyard of an English farm and every living thing that lives thereon is heard through mimicry.

Marquette Padula has made a study of boys. As a rule, it is just the other

way about, but the change is welcome and very well received. One must possess personality and all that sort of thing when playing alone if one entertains hopes of getting the act across the footlights and the fact that Miss Padula does just this is proof of her ability. She plays a piano and sings very well indeed.

Frank Ward has a number of dolls that he rigs to his hands, leaving two fingers free to move as legs. And then he makes them dance on a miniature stage. It is cleverly executed and something out of the ordinary. Font balancing usually is confined to some of Nippon and vicinity, but Van Cello is the exception to the rule and his foot acts are as good as any ever seen locally. Thomas and Gertrude Kennedy present dance creations of their own to close the bill in whirlwind style.

Last night was press night and representatives of several local papers enjoyed excellent seats as the guests of Manager Ben Pickett.

LOWELL OPERA HOUSE

Rich up to the minute with jokes, songs, dances and musical stunts are "The Shifters of 1922" at the present time showing at the Opera House. Headed by Al Lemon, a Keweenaw comedian, Jack Ward, a humorist, Marie Camilla and Lillian Ray, the company produced a very fair show on opening night. Many who thought the offering was just one of those cheap vaudeville shows were forced to admit their mistake before the performance was ten minutes old.

It is little or no attempt to insert a plot, but the manner in which the numbers are carried off is pleasing to the extreme. The company contains a number of scenic singers and one or two dancers of more than ordinary merit.

Marie Camilla, who takes the part of an heiress, has a most pleasing soprano voice. Her numbers, both alone and with the company, are well received. Lillian Ray proves to be a most pleasing "vamp" and puts plenty of jazz to her songs.

To Bob Billaworth falls the honor of the male entertainer with the most pleasing voice. He puts over "Calypso" in a way that calls for a number of encores.

Dolly Jewett also makes a hit with his singing and dancing offering. His solo comedians are few and far between on the stage at the present time, but Jack Ward proves that the act still lives. He has many funny-looking antics and a steady stream of laughs but when he is joined by Al Lemon the laughter becomes continuous while this pair is on the stage. Lemon's dancing is the real bit of the show. He is a class dancer of much ability. He closes the show with an act in which many intricate steps, almost forgotten in theatrical songs, are brought out. Al Lemon's performance he will enter a contest with any of Lowell's class dancers. A cash prize will be awarded to the winner.

Performances will be given every afternoon and evening this week with the exception of tonight when the Lowell theatre will use the theatre for its annual concert.

THE STRAND THEATRE

The three-day program, which opened at the Strand Theatre yesterday

afternoon, is one of the best shown locally in a long time. The management of the theatre has spared nothing to make the entertainment a most worthy one. The program consists of a couple of excellent dramas, a high class comedy and other numbers have resulted in bringing about a program that is sure to please everyone. Alice that is a local screen favorite, appears to advantage in her latest offering, "The Hole in the Wall," while which is being featured in "A Poor Relation," a play that lives up to expectations. Then there is a comedy that provides considerable merriment, and the intermission variety, which include views of the so much talked about Easter parade on the board walks at Atlantic City, where Dame Fashion makes her spring bow, and other pictures of unusual interest.

In "The Hole in the Wall" Alice Lake is all that is expected of her. She plays the part of the mysterious woman, who predicts the future in a very clever manner. The play unfolds the story of a young woman, daughter of a wealthy banker, who, after being wrongly accused of embezzlement, commits suicide. After the death of her father the young woman is being courted by a young man whose mother is bitterly opposed to the marriage, and in order to put an end to the love affair she frames a larceny charge against the young woman, which results in her going to jail for two years. After the completion of her sentence, the young girl swears revenge and plans to kidnap the man who has framed her. She has the opportunity to carry out her plans comes when she impersonates a mysterious woman, who is a leader in spiritualism, and the little love story which started in the girl's younger days culminates, can be better appreciated on the screen.

Will Rogers surprises himself in "A Poor Relation," a story dealing with a kind-hearted, big fellow, whose sole ambition is to look after his orphaned mother who have been left in his care. Incidentally, he spends a lot of his time completing an invention, which he believes will put him on Easy Street. There comes a time when he believes his invention is ready for the market and he appeals to a wealthy relation to buy it. The invention is stolen from his owner before his dream can be realized, but is returned later with the information that the inventor has recourse to newspaper work and in that line he achieves great success. Pathos and comedy are contained in this play, and the various human characterizations by Rogers are very natural. The musical selections by the theatre orchestra are of a high order familiar to Strand patrons.

"JOHN DOE" IS DEAD IN SUPREME COURT

WASHINGTON, April 25.—John Doe was thrown out of the United States supreme court yesterday, and as he disappeared Chief Justice Taft suggested that he might be considered dead.

The action of the court was taken when the state of Massachusetts sought to argue a case docketed as "John Doe, decedent of Commonwealth of Massachusetts," against the city of Rochester, N. Y., and others.

The proceedings seek to quiet title to certain land in Rochester claimed by Massachusetts under the Treaty of Hartford concluded in 1786. Under this treaty New York was granted all land extending down to the water of Lake Ontario. Since then land which the city of Rochester wants for park and other municipal purposes, has arisen from the lake and is now claimed by the state of Massachusetts.

In bringing the original proceedings in the supreme court the "John Doe" practice of the old English form of the King's bench was used.

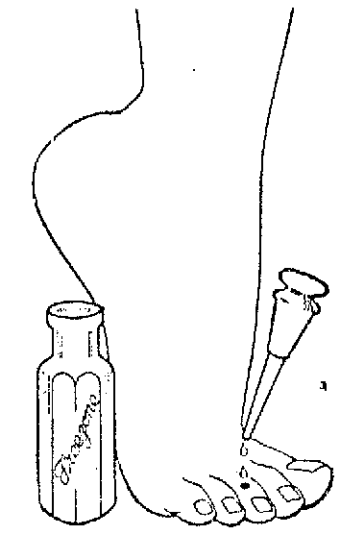

As soon as argument was begun it developed that not only the chief justice but a number of the associate justices objected to the form. Justice Van Devanter demanded, "Is John Doe in court?" A hasty conference on the bench resulted in Chief Justice Taft ordering John Doe out of court, with directions to substitute a modern entity proceeding. A new case must be docketed.

FIELD COSTUME PARTY

A happy gathering of friends took place recently at the home of Mrs. Anna Amey, 820 Merrimack street, the affair being in the form of a costume party. Games were played, entertainment numbers were given and a buffet luncheon was served. Prizes for the best costumes were awarded to the following: Wilfred Rousseau, Adolphe Demers, Hector Labrie, Miss Eva Fraser, Miss Angeline Demers, Miss Bernadette McKinnon and M. Gorenman.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Deep, a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your doctor calls it a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the solution without surgery or irritation. Ask.

Strike Coalgram No. 2

A statement just issued by Eugene Hultman, Fuel Administrator of Massachusetts, is as follows:—

"The market price of Anthracite has not advanced, but unsuccessful attempts have been made to increase the price at the mines. The suspension in production is practically complete, and if the strike should continue beyond June 1st the people of Massachusetts will experience difficulties in regard to the price and supply of Anthracite for their next Winter's domestic fuel requirements, as the physical capacity of the mines to produce an ample supply will be taxed to the limit during the remainder of the season."

This is an impartial opinion and bears out the advice we have given in the present strike situation. We say again, we do not advise putting in your full supply for next season, but all who can should put in enough to last two months in the fall. This will relieve the strain that is bound to come if the strike lasts until July.

MORTON E. AGANS

Do You Have Backache Over Kidneys? Limbs Swell?

Try to Follow Mr. Agans' Advice

Albany, N. Y.—"Ever since my early boyhood I have suffered from weak kidneys and as I grew older they became worse. I got so I suffered continually with backaches, my limbs would swell, my joints became stiff with rheumatism and my bladder became weak. I would have to quit my work entirely several weeks at a time. I was 'all in' and nearly down and out with this ailment. Nothing seemed to give me any relief although I tried everything I could hear of in the medicine line. I was finally advised to try Dr. Pierce's Anuric (kidney and backache) Tablets and through the persistent use of this medicine I was completely cured of all my kidney ailment and bladder weakness and I have never had any trouble from these ailments since. The Anuric Tablets have made a new man of me and I never fail to recommend them when I hear a complaint from anyone suffering with kidney or bladder trouble. Before I took 'Anuric' I had almost given up hope of ever getting better, but, thanks to Dr. Pierce's Anuric, I am in good health and able to work every day."

Obtain these Anti-uric (acid) Tablets of Dr. Pierce's at your nearest drug store; or send 10c for trial package to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.—Adv.

FISH FREE TODAY AT SAUNDERS MARKET

The distribution of 2000 pounds of absolutely fresh shore haddock among the needy of the city began this morning at 8:30 o'clock at Saunders' market, on Gorham street, and by the response it must be gratifying indeed to the management to see their efforts meeting with such marked success. As announced in yesterday's Sun, each family that gets an order from the city poor department, the Knights of Columbus, the Salvation Army or any of the other charitable organizations of the city having authority would receive one fish. These fish average about three pounds each. If it were made known that there are children in the family, a larger fish would be given. The management of the store realizes that there is much need in the city at the present time, due to the scarcity of employment, sickness and numerous other causes, and at this time takes the opportunity of aiding those less fortunate than the many customers of the store. The fact that a fish is received, in no way places anyone under the obligation of buying anything else in the store. Some of the local churches aided by sending people to the store whom they thought could profit by the kindness of the management.

GEN. AGUINALDO NOT COMING

MANILA, April 25.—Gen. Emilio Aguinaldo, who was chosen honorary chairman of the Independence Mission to the United States, will not accompany the mission on account of pressing business engagements here, it was announced today. He hopes to attend the Spanish-American convention in Los Angeles in August and later join the mission.

HOW HE CURED HIS RUPTURE

Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Death"

His Remedy and Book Sent Free

Captain Collings sailed the seas for many years; then he sustained a bad double rupture that soon forced him to not only remain ashore, but kept him bedridden for years. He tried doctor after doctor and truss after truss. No result! Finally, he was assured that he must either submit to a dangerous and abortive operation or die. He did neither! He cured himself instead.

Captain Collings made a study of himself, of his condition—and at last he was rewarded by the finding of the method that so quickly made him a well, strong, vigorous and happy man. Anyone can use the same method; it's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Captain Collings book, telling all about how he cured himself, and how anyone may follow the same treatment in their own home without any trouble. The book and medicine are FREE. They will be sent promptly to any ruptured sufferer who will fill out the below coupon. But send it right away—now—before you put down this paper.

NO PLAN FOR MILITARY MARRIED IN AIRPLANE OCCUPATION

PARIS, April 25 (by the Associated Press).—Premier Poincare has not adopted any plan for the further military occupation of Germany in case of a default in the German reparations payments on May 31, it was asserted in official circles today.

The premier's speech yesterday, in which he declared France would, if necessary, undertake alone to see that the treaty of Versailles was executed in case of a default, is said to have been intended to make the government's policy clear and put an end to the criticisms that France was persisting in an obscure attitude.

There is plenty of time to consider what should best be done to oblige Germany to respect her engagements, it is pointed out.

The sentiments expressed by Premier Poincare, yesterday, at Bar-le-Duc were echoed throughout France by leading public men at the sessions of the general councils of the departments.

MISS FAIRBROTHER HONORED

One of the prettiest showers of the season was held last evening at the Y.W.C.A., when about 75 friends gathered in honor of Miss Marjorie Fairbrother, who is soon to become the bride of Mr. Arthur Melvin of Robb's street. She received many beautiful and useful gifts. The room was prettily decorated in pink and white. The surprise feature of the evening was a mock marriage ceremony which was carried out with great success by Miss Mae Dunn as parson, Olga Emming, bride, Peggy McDerane, groom, Madelyn Casey, bridesmaid, Agnes Owens, best man. Refreshments were served, and dancing was enjoyed until a late hour, after which the party broke up, wishing Miss Fairbrother much happiness.

MARRIED IN AIRPLANE

Nuptial Kiss Planted 5000 Feet in Clouds Broadcast to Ears of Thousands

NEW YORK, April 25.—A nuptial kiss planted 5000 feet in the clouds over Times square was broadcast from the cockpit of a speeding airplane to the ears of thousands of radio fans late yesterday, when Miss Sarah Cokelair, Brooklyn, nurse, and Albert P. Schaske, athletic director of the Veterans' Mountain camp, became wife and husband.

Lieut. Melvin W. Maynard, the "flying parson," performed the ceremony. Lieut. Bert Acosta piloted the party in a Fokker "half moon" biplane and at the appropriate moment affixed his signature to the marriage document and turned his back on the bridal kiss.

Each detail of the ceremony, except the blush, was transmitted to radio fans by apparatus on the plane. When the ceremony was over, Mr. and Mrs. Schaske started their honeymoon by scattering over New York programs of the spring flying show to be held at Curtis field next Sunday.

Today, the couple will go by air to Albany, Schenectady, Syracuse and—perhaps—Niagara Falls.

THEY PAY WITH BOGUS CHECKS

Harry Hamilton, chief of the Port Worth, Tex., police has solicited aid of the local chamber of commerce in the apprehension of B. H. Whiting and wife, alias Verna McLean, who are charged with passing bogus checks on Port Worth merchants.

The chief has requested in a circular letter, that the chamber notify the merchant's association, commercial lawyers, collecting agencies, Willys Overland agencies, automobile license

bureaus and others of the modus operandi of the pair.

The couple, with their two children, are touring the country in a Willys-Knight touring car. They generally stop at some exclusive hotel, prior to engaging an expensive apartment. Merchandise from the leading stores is ordered and C.O.D. shipments requested. Payment by bogus checks follow.

It is said that Whiting will call on commercial lawyers, and collecting agencies with a view to establishing

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

himself and handling claims, and successful will emboss money obtained.

A New England Druggist Tells Why He Uses Sanalt the Sensible Tonic in His Own Family

MR. WM. D. STRACHAN, 222 SMITHFIELD AVE., PAWTUCKET, R. I., IS ONE OF THE MOST WIDELY KNOWN AND RESPECTED CITIZENS OF HIS COMMUNITY. WHAT HE SAYS IS EXPRESSED IN A FEW WORDS, BUT IT MEANS MUCH.

"My brother and I have been greatly benefited by taking Sanalt for chronic constipation, from which we had suffered for years."

Probably seven people out of every ten who read this advertisement will be able to sympathize to some extent with the Strachan brothers.

Very eminent medical authorities state that at least 70 per cent. of human life either cause or are caused by constipation.

Millions of people who have turned to cathartics for help have only found temporary relief. As soon as the cathartic medicine passes through the system, the condition is worse than ever.

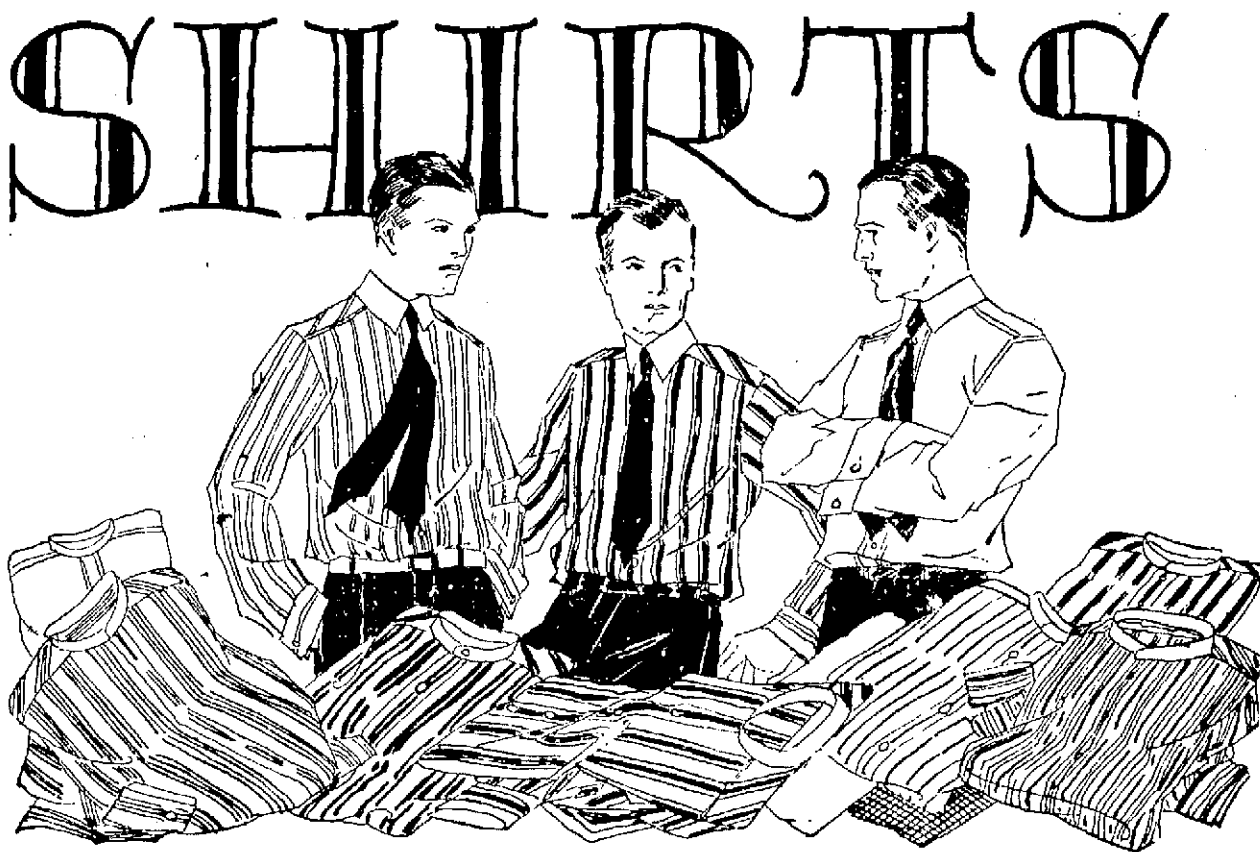

Sanalt the Sensible Tonic is not a cathartic. It does not force any of the organs to act, but has such a general restorative effect that it enables stomach, liver, kidneys, and bowels to act naturally and thus purify and enrich the blood, with the result that general good health is restored.

Any obliging druggist will sell you Sanalt.

Radio

Radio Soon Will Be Free and World-Wide, Says Amateur Leader

By N.E.A. Service
NEW YORK, April 25.—"The time is almost here when the free exchange of private radio communication between citizens of all lands will occur at more or less frequent intervals." That is the statement of Paul F. Godley, leader of radio amateurs in America. Godley is the first man to receive a trans-Atlantic wireless message on the short wave length. "The American boy has set the whole world a-buzzin'," says Godley. "And Europe will be stepping along at a fast clip, too."

Within the next four years, Godley estimates, five million American homes will be equipped with radio sets. "A few months ago," he explains, "to show the vastly increasing interest in radio, 'the world at large knew very little about radio communication. Now we see Holland taking every advantage of radiophone broadcasting. Mexico follows suit with a similar policy."

"South American countries are greatly interested in the possibilities of this wonderful thing and recently France legalized amateur transmitting and receiving."

"English amateurs, who never both-

PAUL F. GODLEY

ered about communication over distances greater than 25 miles, are picking up. They have been away behind their American brothers.

"Here the youngster starts climbing trees and scaling roofs to rig up an aerial when he is 12 to 13. There they don't begin to be interested until they are 20. But they are living up."

JURY FINDS ATTORNEY ULMER GUILTY

BOSTON, April 25.—Concluding a trial which lasted for two weeks before Judge Fosdick in the superior criminal court, a jury, after deliberating two hours yesterday afternoon, returned a verdict of guilty on seven out of eight counts in an indictment against Attorney W. Edwin Ulmer of Brookline for making false returns of conditions of the Henry Wood Sons company to the commissioner of corporations for the year 1919.

These returns were filed at the state house on Nov. 30 and Dec. 10, 1920, and while the government did not contend that Mr. Ulmer personally presented the returns, it was claimed that they were prepared under his direction. Mr. Ulmer, after the verdict had been declared, announced that he

should go to the supreme court on exceptions. Throughout the trial he conducted his own defense, but did not testify.

In 1918 Mr. Ulmer was engaged by the heirs of Edmund F. Wood as counsel for the Henry Wood Sons company and the Waban Rose conservatory, and received as compensation \$350 a month from each corporation. Eventually it was claimed Ulmer obtained control of both corporations, and Mrs. Mary E. Hand, a daughter of Edmund Wood, testified that she was ousted from the office of treasurer, which she had filled for some time. Mrs. Hand in her evidence said that she pointed out to Ulmer liabilities of the Henry Wood Sons company not included in the return for 1919, and that Ulmer declared that if an accurate certificate were filed the company could not obtain credit.

The penalty provided by the statute under which the indictment was framed is a fine not exceeding \$5000 and imprisonment for not more than three years, or both.

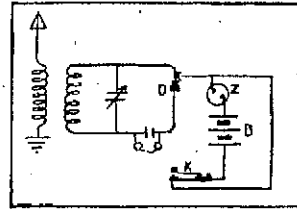

GETTING MOST OUT OF CRYSTAL

By R. L. DUNCAN
Director, Radio Institute of America
It is often difficult for the amateur to find the sensitive spot on his crystal detector.

By using a simple high frequency buzzer and a small ordinary dry cell it is easy to adjust the fine wire on the selective spot of the galena.

On the diagram, Z represents the buzzer, B the battery, K the small key and D, the detector.

This key may be made of a small

piece of sheet brass. A small round piece of wood and a stiff, springy wire are used for the contact point driven into one end of the wood.

A small knob is fitted on one end of the spring as a push button and the other end is fastened to the wooden base, at a point opposite the brass wire.

When a contact is made by pressing the spring down to the tack head, the circuit is closed and the buzzer vibrates.

Adjust the fine catwhisker wire leading to the galena until the buzzer is vibrating until the sound is heard in the head phones.

By picking around in this manner you will be able to locate the best spot on the galena. After this point is found, immediately release the buzzer current, although the buzzer circuit does not have to be disconnected from the set.

Do not touch the surface of the galena with your bare hands. When the galena seems lifeless, wash it with alcohol or file the surface with a medium groove file.

A new sensitive point will probably be discovered.

RADIO PRIMER

Ion—An atom of matter whose definite amount of electrons has been removed or decreased so as to give it an electrical charge. When the electrons are decreased, the atom becomes a positive ion. When electrons are added, the atom is converted to a negative ion.

AN ENEMY TO GOOD HEALTH

Good health has no greater enemy than constipation. Foley Cathartic Tablets are mild but sure in action. They banish biliousness, bloating, bad breath, coated tongue, sick headache, sour stomach and other ills caused by indigestion. Take one tonight and you will feel better in the morning.

MEETING AT DRACUT CENTRE CHURCH

The Andover Association of Congregational Churches and Ministers opened its annual meeting at the First Congregational church, Dracut, Centre, this afternoon. The exercises opened at 2:45 o'clock with devotional service and this was followed by report of officers and committees. The following program of addresses was then carried out: "Congregational Bonds of Fellowship," Rev. W. W. Hodgson, New England representative of the Congregational Commission on Mission; "Modern Tendencies in Social Life," Miss Emily M. Skilton of Lowell and Miss Fannie E. Davis of North Andover; "Christian Ideals for the Social Life," Rev. Richard Peters, Lowell.

A business session is scheduled to follow the address, and supper at 6 o'clock.

The evening session will open at 7, and the principal speaker will be Rev. Frederick E. Emrich, D.D., of Boston. The topic will be "The Task of Bringing the Message of Christ to the People of Today."

MIDDLESEX WOMEN'S CLUB

Books recommended for the season by the State Federation of Women's Clubs for the purpose of review, were discussed and reviewed at the weekly meeting of the Middlesex Women's club yesterday by several of the club members. Notable among the reviews was that of Mrs. Ralph Shaw on "The Life of Queen Victoria," and "The Americanization of Edward Bok" was capably handled by Miss Bertha Rowlandson. Many of the most popular works of fiction were given an excellent exposition by Mrs. C. E. Freuden. The meeting was held in Middlesex hall, instead of the larger Colonial hall which is used when guests are present.

The largest freight engine weighs 450 tons and has actually drawn a load of 17,000 tons on a slight upgrade.

CIVIL SERVICE SCANDAL GIVEN TO ALLEN

BOSTON, April 25.—As a sequel to the recent disclosure in the state civil service commission, involving the advance sale of examination papers to members of the Boston police department who sought promotion, Chairman Payson Dana of the commission yesterday placed the evidence in the hands of the attorney general for any action he might care to take.

Announcement of this step was made by Chairman Dana in a report to Gov. Cox, in which he expressed confidence that the papers were passed illegally in only two examinations and that there was no danger of a repetition of the offense.

The discharge of two employees of the commission and the incrimination of a courthouse attaché and a police sergeant followed the disclosure.

The distance an arrow can be sent by a good archer is from 200 to 250 yards.

STARVED NERVES

The importance of building up the blood to correct nervous troubles is shown by the experience of Mrs. Belle C. Melendy, of 800 E. Cedar street, Concord, N. H. She says: "I suffered from neuritis and nothing seemed to give me permanent relief. The pain was in my right shoulder blade and at times it seemed as though it would drive me crazy. My appetite was bad, my nerves were unstrung and I was tired and worn out."

"After reading about Dr. Williams' Pink Pills I gave them a trial and in a short time I noticed that I was being benefited. The pain in my shoulder grew less and finally disappeared. I have not had it since. My color improved and I gained in strength. I am grateful to Dr. Williams' Pink Pills and am glad to speak a word for them."

Dr. Williams' Pink Pills are sold by all druggists. Price sixty cents. Write to the Dr. Williams' Medicine Co., Schenectady, N. Y., for free booklet on nervous disorders.—Adv.

WILL HOLD MINSTREL SHOW AND DANCE

Pawtucketville talent in minstrelsy will be featured in Associate hall on Tuesday evening May 3, when the Holy Name society of St. Columba's parish presents its much heralded minstrel show and dance. For weeks every member of the committee on arrangements has been working at top speed and a number of encouraging rehearsals have been held at which the members of the minstrel troupe have demonstrated great versatility. The ladies of the parish have volunteered to conduct novelty and refreshment tables.

The members of the committee in charge are as follows:

John Carroll, chairman, Patrick Harrington, Bartholomew Mullen, Jas. Gorman, John Stapleton, Timothy O'Neill, Edward J. McCarthy, Richard E. Place, Charles A. Gallagher, Andrew Doyle, Cornelius P. Cronin, Francis Ralls, Charles McQuillan, Andrew Molloy, John O'Neill and Joseph Quigley.

The novelty table will be under the supervision of Mrs. Fred Hammond, assisted by Mrs. George Holden, Miss Minnie Farley and Miss Katherine Farrell. The refreshment table will be cared for by Mrs. Patrick Brogan, with a number of assistants. Walter J. McDonald has been named as assistant treasurer.

MAY USE MONEY FOR CENTENNIAL

If the provisions of the bequest of Huggood Wright can be interpreted so that money in the fund may be used for the purposes of a centennial celebration, Lowell will have in the vicinity of \$7000 to spend in 1926, which is the 100th anniversary of the founding of Lowell as a town.

In 1876, Mr. Wright gave the city \$1000, with the understanding that it should be put on interest and at the end of 50 years the accrued interest should be used for the "benefit and improvement" of the citizens of Lowell. The original bequest of \$1000 was augmented in 1915 when the municipal council voted to accept a further bequest of \$533.75 in accordance with a provision of Mr. Wright's will.

Before long definite plans for the centennial celebration will begin to take shape and if it is found that money can properly be used, it will be of great benefit.

Civil War Veteran Perfects Cane Harvester After Twenty Years' Work

TWO VIEWS OF GEORGE D. LUCE'S CANE HARVESTER AT WORK

By N.E.A. Service
HAMMOND, La., April 24.—Twenty years of experimentation and the expenditure of more than half a million dollars have brought forth a mechanical cane harvester which is expected to have far-reaching effect on the sugar business.

The inventor is George D. Luce of Hammond, a veteran of the Civil war, who has lived in the south since be-

ing mustered out of the service. Luce became interested in the harvesting of cane. Research showed him that there had been no advancement in the industry for hundreds of years.

So he sold his moss business in New Orleans and made model after model of a cane harvester. As mistakes were discovered he would correct them.

Recently he perfected a machine which experts say is just what the cane business has been waiting for for 3000 years. The machine cuts the cane at the last ripe joint, strips the leaves, and tops the stalks.

A carrier device dumps the stalks in bundles or unloads them in a wagon. The new harvester is now being manufactured and will shortly be on the market.

current year, ending March 31, which shows a gross income of \$649,024, as compared with gross income of \$544,916 for the same three months last year. The operating revenue and income this period of the current year was \$2,630,387, as against \$2,761,379 for the same period last year, while the operating expenses and taxes fell last year to \$1,081,363 for the current three months.

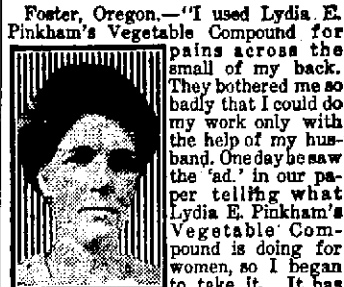

The fixed charges and rentals were \$385,042 for the past three months and

\$399,923 for the same three months last year. Miscellaneous deductions increased from \$4714 for the three months of 1921 to \$2441 for the same period this year. The net income was \$252,541 for the three months just ended as compared with a net income of \$140,266 for the same period last year.

The statement explains that in order to meet the cost of service required for the period the sum of \$534,502 had to be made, while \$580-

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework—
Lydia E. Pinkham's Vegetable
Compound Made Her Strong

Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day I saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been in regular to, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. WM. JUNKKE, Foster, Oregon.

Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

373 was required for the same period last year.

HAMILTON AND NEBES TO MEET AGAIN

Porrest Hamilton of Portland, Me., who defeated Al Nebes of Lowell (twice) at Rockland, Me. last week, will be in town tonight and will try out the Kalamo roller skater of Maine at from one to three miles, and from all reports he is a whirlwind skater. Judging from the way he trimmed the local after he is some boy on the rollers. Nebes offers no excuse for his defeat, the first time, straight in six years, merely saying he was beaten and Hamilton is some skater and a clean worker. It will be remembered that Hamilton skated here in Lowell 16 years ago in a six-day race, but at that time was a mere boy; but under the personal training of Clarence Hamilton, his brother, who held the championship of the world four years and also broke the world one mile record, young Porrest has turned out to be the real robot as a skater. Al Nebes, the local villain, has been for 17 years the most consistent winner against the fastest skaters in the eastern states, defeating such champions as Billy Yale, of New Haven, Conn., N. E. Champion, Willie Blackburn of New York, eastern states champion; Feglington of London, England, international champion; Glen of Canada, Canadian champion, and over 400 others. He has lost but 12 races in 17 years; some record for a skater to hold; and Al is well known all over this section of the country as a marathon runner, ice skater and bicycle rider, but roller skating is his favorite sport. On Wednesday night he will skate Hamilton three miles, Thursday, five miles, and Friday seven miles.

JUSTICE BRANDEIS' DAUGHTER A LAWYER

NEW YORK, April 25.—Like father, like daughter is the 1922 version of the ancient adage, as applied by Miss Susan Brandeis, daughter of Justice Brandeis of the United States Supreme court, who yesterday announced that she had "hung out her shingle" as a full fledged attorney at law.

Miss Brandeis has been an assistant in the office of William Hayward, United States district attorney for New York, and has formed a law partnership with Benjamin R. Kirsh, also on Col. Hayward's staff.

RATSHESKY FOR MEXICAN POST

WASHINGTON, April 25.—A. C. Ratshesky of Boston is being strongly urged for ambassador to Mexico, in the event of the recognition of the Obregon government. Both Senator Lodge and Secretary of War Weeks have urged his appointment.

There are indications that the Mexican situation may be cleared up in the near future. Informal negotiations have been going on for some time past. The settlement, of course, will turn on the recognition of American property rights in Mexico by the Obregon government.

CARD. O'CONNELL GLAD TO BE BACK

BOSTON, April 25.—Cardinal O'Connell was at home again today after an absence of three months, and necessary by his journey to Rome for the papal conclave. He arrived last night from New York.

WHAT KIND OF SOAP FOR A WASHING MACHINE

I always think of soap as the partner of a washer. Some soaps are lazy partners, others do their full share of the work.

Soaps that do not dissolve completely, that give light, frothy suds without substance, make a washing machine do more than its share of the work.

Rinso, the new kind of soap, helps the washer do its best work. Every grain is so pure and perfectly balanced that it loosens all the dirt. It prepares the way for the efficient operation of the machine. When you use Rinso you don't have to rub at all.

Whether they have a washing machine or not, women the country over are using Rinso in place of bar soap at every step of the family wash.

HENPECKED HUSBANDS

Meeting Place of Ancient
and Honorable Order Being
Kept a Strict Secret

LONDON, April 25.—The place for holding the annual meeting of the "Ancient and Honorable International Order of Henpecked Husbands," an organization having headquarters at Sowerby, near Bradford, is being kept a strict secret. Last year's meeting, to ensure freedom from wifely interference was held at an isolated spot on Blackstone Edge Moors.

Much time will be required at this year's gathering for the consideration of a long list of applications for membership, as each candidate must be severely cross-examined regarding his fitness to be dubbed "well and truly henpecked." The organization's stationery declares the order dated back to the year 389 B. C.

FRATERNAL NEWS

It was with sorrow that the members of Gen. Adelbert Ames camp, 19, S.W.V. were informed last evening that the next convention of the organization will not be held in this city as had been expected, for the delegates in convention at Malden last week selected Cambridge as the next convention city. The local camp had been very active in an attempt to carry the convention to this city, but without success. This announcement was made at a regular meeting of the camp with Commander Cryan in the chair. In the course of the meeting routine business was transacted and communications from headquarters were read and referred to the proper committees.

Next evening's meeting of Lady Franklin council, Sons and Daughters of Liberty was preceded by a whist in charge of Mrs. Helen Wyman. Routine business was transacted during the business session and this was followed by a brief meeting of the Ex-Councilors' association during which arrangements for the next state council to be held in Springfield in May.

Local Integrity Lodge
Routine business was transacted at last evening's regular meeting of Local Integrity lodge, 6630, I.O.O.F., M.U., N.G. Fairlie Brown occupied the chair and the white degree was conferred upon three members.

Walker Rogers Post
The regular meeting of Walker Rogers post, 663, V.F.W., will be held this evening at 8 o'clock in Memorial hall. Important business will be transacted and new members will be initiated. Plans for the Memorial day observance will also be made and a large attendance is expected.

TEXACO GASOLINE THE VOLATILE GAS

(Volatility is the readiness with which gasoline gives up its power)

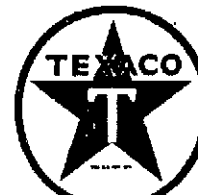

Every time the gasoline mixture in your motor cylinders gets the spark—if it's Texaco—you get the full power-value for every fractional part of a cent that gasoline cost.

There's more power and mileage in Texaco Gasoline—and even in idling it shows up. This is what you'll notice with sluggish gas: 1-4, 2, 3, 1-4-2, 3-1-4, 2-3—and you expect the next stroke will be the last. With Texaco Gasoline in the tank, it's 1, 4, 2, 3, 1, 4, 2, 3, 1, 4, 2, 3 and so on indefinitely.

Texaco Motor Oils are heavy-body lubricants and are distinguished by their clear pale color. Light, medium, heavy and extra-heavy—they fit all cars and all conditions. You will find them wherever you see the Texaco red star.

Fleischmann's fresh yeast increases the action of the intestines

The familiar tin-foil
package with the yellow
label is the only
form in which Fleischmann's
Yeast is sold

HUNDREDS of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy.

Try it out for yourself. Begin today by adding 2 or 3 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. You can get Fleischmann's Yeast fresh daily from your grocer.

WOMEN OPEN CONVENTION

National League of Women Voters in Session at Baltimore

"Education of Citizens the Safeguard of a Republic," Keynote of Convention

BALTIMORE, April 25.—The education of citizens is the safeguard of a republic. This motto, printed on the convention program, is the idea which Mrs. Maud Wood Park, president of the National League of Women Voters, in her opening address at the third annual convention of the league here today, said she would like to put before the convention as a guide for its deliberations.

"Because this convention is the people," she said, "was founded to bring about the safety and happiness of the citizens through a political system clean, efficient and just, and because the women of the United States have at this time a peculiar opportunity given in their recent enfranchisement to help in the full realization of this great ideal, we are banded together to do our part. That I take to be the underlying faith of the League of Women Voters."

"Women by virtue of their distinctive experience in life," said Mrs. Park, "have a tendency to see affairs of government in such terms as education, public health, public morals, the human development made possible by a peace-loving and forward-looking civilization. This is the point of view of social welfare, and it should be reckoned with quite as fully as should the point of view of business interests."

Presentation of committee reports and recommendations consumed virtually all of the first day's session.

RUSHES RAT TO HOSPITAL

Boy's Pet Has Tail Virtually as Good as New, Thanks to Surgeon

SAN FRANCISCO, April 25.—Jerbo, a pet rat belonging to 13-year-old Donald Myatt, has a tail that is virtually as good as new, thanks to a surgeon at the Emergency hospital.

Late yesterday Donald came to the hospital when the staff was busy and pleaded tearfully that his Egyptian rat be given treatment. The tears finally won.

The boy's version is: "I had my rat at a pet show. A cat hissed at him while I was holding the tip of his tail. He jumped so hard the skin peeled off."

The skin was sewed back on, according to a report from the hospital. The record reads: "One rat—re-tailed."

SEEK CONFERENCE IN TANNERY STRIKE

It is believed at the strike headquarters of the employees of the American Hide & Leather Co. that a conference between the officials of the company and the strikers will be arranged for some time in the latter part of this week. It was reported at headquarters that one of the men in charge of the local plant is endeavoring to bring about the conference with either the president of the company or C. J. Lilly, general manager for the New England district. Whether or not he will be successful in his work is not known, but it is felt that if a conference is held it may bring about a settlement of the strike, which was started five weeks ago today.

Rev. Robert L. Fox, pastor of the First Baptist church, will be the principal speaker at a mass meeting to be held at strike headquarters in Central street tomorrow afternoon at 2:30 o'clock. It is said that the reverend gentleman has some very important matters to discuss with the men who are protesting against a 10 per cent reduction in wages.

TO CALL TROOPS IF NECESSARY

Judge Johnson Determined to Stop Lawlessness in Mountains of Kentucky

Issues Warrants for Arrest of 200 Residents of Mill Creek

Feudists of Clay County, Join Hands With Civil Authorities in Clean Up

MANCHESTER, Ky., April 25.—Feudists of Clay county, who a few months ago were ready to shoot opposing clansmen on sight, have joined hands with each other and with the civil authorities to clean up Mill Creek, following the action of Circuit Judge Hiram J. Johnson, who yesterday issued warrants for the arrest of 200 residents of the mountain territory. All persons in the Mill Creek territory over 12 years of age will be taken into custody by the posse. Judge Johnson's drive to stop lawlessness in the mountains of Kentucky.

Posse men are combing the hills and bringing in prisoners. Judge Johnson's instructions were "to bring the men in" and he announced that he was going to clean up Mill Creek if it required the assistance of 1000 soldiers.

The trouble about Mill Creek began Thursday when John Taylor, who had been summoned as a witness in a land suit, was shot to death from ambush. Deputy Sheriff Pitt Stivers later that day, was sent into the neighborhood with four others to serve warrants for persons wanted in connection with the shooting and other cases. They were attacked by 16 men in ambush. Mr. Stivers was shot from his horse and the others escaped only by hard riding.

Deputy sheriffs reported that "moonshining is rampant in the Mill Creek section."

A conspiracy among the Mill Creek residents to thwart the law has existed several months, they declared.

Picket Shot by Deputy Sheriff

Almeida, who is about 27 years old, stopped a colored man and tried to dissuade him from going to work. An altercation followed which attracted a small crowd to which the attention of the deputy sheriffs was directed. They rushed to the scene but in the meantime the colored man had got away from Almeida. The sheriffs tried to disperse the crowd and as they did not go fast enough several shots were fired in the air and on the ground. This had the effect of making the crowd run and it is said that one of the shots fired at the ground ricocheted and hit Almeida on the back of the neck. Those near the scene say that Almeida ran a distance of over 200 feet after he was hit before he fell.

Immediately afterwards, Almeida was placed under arrest and taken in the United wagon to the district court where he was charged with assaulting Lewis Matting of 42 Wickenden avenue, Providence. At first he pleaded guilty and was held in the sum of \$500 for trial on May 5. Almeida's clothing was covered with blood at the time of his arraignment.

Augustus W. Delgado, who was arrested during the trouble that preceded the shooting was arraigned on the charge of receiving and on pleading not guilty, was held in \$500 for trial on May 5.

Almeida again changed his plea and pleaded guilty. Judge Buck, in continuing him to six days in jail, said: "You have no more right to stop persons going to work than you have to stop me."

CABINET MEMBERS TO HOLD OUTSIDE JOBS

OTTAWA, April 25.—After a long and bitter debate the house of commons today voted by a vote of 112 to 25 the resolution calling on cabinet members to resign from all outside business directorships.

MORGAN AGREES TO HELP ON GERMAN LOAN

NEW YORK, April 25.—J. P. Morgan yesterday announced his acceptance of the Allied Reparations Commission's invitation to become a member of the committee which will consider dolation of an international loan for Germany. He will sail for Europe about the middle of May.

Mr. Morgan indicated that the proposed loan to Germany would be a popular loan, to which the people of the United States and other allied countries would be asked to subscribe. With good terms and on good security, he said, he believed such a loan could be placed.

"America, of course, is very important in this foreign loan situation," said Morgan. "The question is asked as whether and if so on what terms, a German loan can be placed in this country."

"I think I can be useful and I am going over about the middle of May, personal matters preventing me from sailing before that time."

Mr. Morgan said he could not say his final acceptance of the invitation last night.

Mr. Morgan declined to estimate what amount of German bonds could be sold in the American market, much depending, he said, upon the terms and the security offered. However, he expressed the opinion that, if the terms were satisfactory, conditions for such a loan were excellent at this time.

Mr. Morgan said he thought the loan would clear away the chief obstacles to Europe's rehabilitation he said: "Now you are getting into politics."

"My interest in the situation," he explained, "is merely to advise what the United States can do to help out the loan plan."

Withdrawal Alternative

Press—Foreign Minister Tchitcherine of soviet Russia declared to the Associated Press this morning that it was allied resistance to the Russian principle of internationalization which was blocking the conference here.

"It is obvious," said M. Tchitcherine, "that the only serious obstacles to peace with Russia, and general reconstruction are the pretensions of a few former owners of property in Russia."

"Tchitcherine" in English

GENOA, April 25.—In view of differences over the name of the Russian minister of foreign affairs, who is here as head of the Russian delegation, inquiry has been made as to whether it is "Tchitcherine" or "Chicherine." The minister prefers to have his name spelled "Tchitcherine," which it is to be read by English-speaking people with the accent on the second syllable.

DRIFTING TOWARD ROCKS AGAIN

GENOA, April 25.—(By Associated Press). The Genoa conference is drifting toward the rocks again. Whether it can be kept from wreckage depends upon the possibility of adjusting the new demands of the Russian soviet delegates with the position of the allied governments who declare they will steadfastly stand by the resolutions adopted at Cannes on which the conference is founded.

The situation is made more critical by the French premier's firm standing in his address at Rapallo yesterday that France will withdraw from the conference if she is unable to see that the ideas expressed by the French cabinet before parliament can triumph.

The French demands include maintenance of the war reparations, disarmament of all disarmed countries and an increasing of existing treaties at Genoa, at addition France insists on rigid adherence to the Cannes resolutions which call for the payment of Russia's pre-war debts and the restitution by the soviet government of the property of private industry in Russia.

The conference of experts on the Russian question broke up yesterday and adjourned sine die because the experts representing the powers forced the Russians' new set of proposals absolutely in contradiction with the soviet note accepting the Cannes terms as a basis for future negotiations.

Yesterday the Bolsheviks announced their intention to restore private property because everything was nationalized in Russia, but in their note of acceptance, they voted willingness to restore such property or indemnify the owners provided the country's war debts to the allies were cut down and financial help for Russia forthwith.

Instead of accepting the allied demands for the payment of war debts, with the understanding that these debts be scaled down and the arrears in interest either postponed or repaid in part, the Bolsheviks came in with an entirely different proposition. They asked the complete annulment of all war debts.

The soviet spokesmen asked for a moratorium of 50 years on pre-war debts and the cancellation of the interest, according to the allied version of the meeting. This cancellation was to apply to both the past and to the period of the moratorium.

Finally, the Russians made clear that in refusing to restore private property in Russia, they would not accept any surrender by Russian citizens of their rights to hold property in fee simple in foreign lands, "bourgeoisie countries" where the right to possess property went with the bourgeoisie system.

Such, said the Bolsheviks, were their terms but they could only grant them on condition that the powers represented at Genoa would first agree to provide the Russia soviet government and accord it adequate financial help for its proper economic reconstruction.

The day went the rounds of the delegates last night that the Bolsheviks will hold the United States morally responsible for the presence of the Japanese troops in Siberia, where the Japanese occupied the territory and only withdrew with American troops but actually at the request of the American government.

NEW OWNER FINDS STILL IN CELLAR

NASHUA, N. H., April 25.—The Charles Palmer house in South Merrimack, which has been unoccupied by any owner for two years, was sold last week. The new owner went down cellar yesterday and found a toad still in operation, 200 gallons of wash and great quantities of rubbish and other, but no water. Police are looking for the toad owner. It is thought that the man came from Nashua and worked in secret nights.

It was increasing rapidly in England, especially among the poor.

DEMAND COL. MAJOR BE DISCHARGED FROM ARMY

WASHINGTON, April 25.—Discharge from the army of Lieut. Col. Duncan K. Major, former chief of staff of the 24th (New England) division in France, and now aide to Gen. Pershing, was demanded before the senate military committee today, by a delegation of 22 New England National guard officers, led by Brig. Gen. Edward L. Logan and Charles H. Cole.

Spokesmen for the delegation, which appeared before the committee sitting in executive session on the recently submitted nomination of Major to colonelcy, were said to have charged that officer was unfit for command, insubordinate and otherwise not worthy of a place in the commissioned personnel of the army.

Another reported charge made against Col. Major was that he is adjudged against the National Guard. As chief of staff of the 24th division, Col. Major served under Major General Edwards.

The commission's study of the postal service as relating to the farmer was said to have convinced it that "increased postage rate on second class mail matter, notwithstanding reductions of fourth class matter (parcel post) has been particularly burdensome upon farm publications."

Head of Athlone Brigade Slain

the hotel where the mutinous troops held their headquarters. He was suddenly confronted by a group of armed men who ordered him to throw up his hands.

"The general, being alone, complied and while his arms were raised, the assassins deliberately fired at him. Several of the mutineers' officers were arrested."

21 Catholics Slain

BELFAST, April 25.—(By Associated Press).—The Belfast Catholic protective committee last night sent a message to Winston Spencer Churchill, secretary for the colonies, asserting that the "war on Catholics" in northern Ireland was continuing.

The committee also issued a statement saying that it is non-political, but that it represents the Catholic professional and business life of Belfast. According to the statement, the casualties since the signing of the pact between the northern and provisional governments on April 1 are as follows:

"Catholics murdered, 14 men, 5 women and 4 children; attempted murders, 27; wounded, 59; houses looted and burned, 75; houses bombed, 5; families evicted, 10; persons homeless, 254."

Two More Killed

BELFAST, April 25.—Two men, one of them 76 years old, were killed last evening in East Belfast by snipers.

Men Who Fled to Tree Drowned in Flood

FORT WORTH, Tex., April 25.—The Trinity river stood at 33.5 feet today next to the highest ever recorded here. Seven inches of rain fell last night, a record. The levees here are holding. The municipal water supply is down and electric lights are out. Two men who had taken refuge in a tree at the foot of Florence street were drowned when the tree was swept away.

Seattle Bars All Arbuckle Films

SEATTLE, April 25.—The city board of theatre censors here has decided to bar all Roscoe Arbuckle films offered for exhibition in Seattle.

Premier Lenine Undergoes Operation

RIGA, Latvia, April 25.—(By Associated Press).—Premier Lenine of soviet Russia was operated on yesterday, says a report from Moscow today. A bullet which had troubled him for three years was extracted from his side. Last account, were that the patient was doing well.

Negotiating Separate Wage Agreements

SPRINGFIELD, Ill., April 25.—Negotiation of separate state wage agreements by striking coal miners in Kentucky and Tennessee was announced today by Frank Purington, Illinois president of the United Mine Workers. Separate wage agreements by locals in Illinois are imminent, he added. In Alabama, he said, the state union officers have instructed members to continue at work.

MATRIMONIAL

Late yesterday afternoon Mr. John W. Downey and Miss Mary A. Hession were united in marriage, the ceremony being performed at the Immaculate Conception rectory, the ceremony being performed at 4:30 o'clock by the pastor, Very Rev. Lawrence F. Tighe, O. M. I. The bride wore henna crepe with georgette trimmings, blue horsehair hat and carried bridal roses and sweet peas. She was attended by Miss Gertrude Hession, her sister, who was attended in St. John's Canton, where with volenslona lace trimmings and hat of grey georgette. She carried sweet peas. The best man was Mr. Hugh F. Field.

Downey, a brother of the groom. At the close of the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Thomas J. Hession, 178 Perry street. After an extended honeymoon trip the couple will make their home in Lonsdale avenue, Ashmont.

Welch—Wilcox

The marriage of Mr. Cyrus S. Welch of Pittsfield, N. H., and Miss Edith A. Wilcox of this city took place yesterday at the parsonage of the Gorham Street P. M. church, the officiating clergyman being Rev. N. W. Matthews. The couple were attended by Mrs. Jennie E. Wilcox, mother of the bride. They will make their home in Pittsfield.

INTERIOR OF THE SHOWROOM OF NEW BUICK HOME

Splendidly Built and Equipped Structure in East Merrimack Street a Monument to the Business Progressiveness of Fred B. Emerson and Milo W. Hale—Plant Covers Large Area and Will Be Devoted Exclusively to Buick Sales and Service

The Lowell Buick Co., expanding as it feels justified to do in face of the growing popularity of its products in this city, tomorrow begins a new chapter in its business accomplishments when its magnificent new home, including salesrooms and service station, in East Merrimack street, will be open to public inspection and actual business.

Not only does the building itself stand as a true and splendid product of architectural and contractual accomplishment, but in a more personal sense, it is a triumph for the company as so well represented by Fred B. Emerson and Milo W. Hale.

It was in 1913 that these two Lowell men took over the Lowell Buick Co. from Harry J. Noyes and the new plant, dreamed of and planned for then, has become a reality solely because of their strict adherence to the unwritten code of fair business dealings, their progressiveness and their stick-to-itiveness, plus the magnanimity of their own personalities that they successfully wove into the fabric of their business.

Both Mr. Emerson and Mr. Hale are veterans in the automobile game. The former went with the Lowell Taxi Cab Co. in 1909 and with Mr. Hale went in to the Lowell Automobile Co. two years later. Then in 1913 they purchased the Lowell Buick Co. from Mr. Noyes.

Facing the Memorial auditorium the new Buick building, touching elbows with the Cadillac building, is a most welcome addition to that section of the city and on a street that many people like to think of as Lowell's Automobile Row of the future.

Within and without the new building possesses every detail of workmanship and accommodation sought for in a structure of its type and adapted for automobile uses. It has been in the process of construction for some little time and its opening purposely has been delayed until such a time that it was finished to the last degree.

The building covers a large area and in addition to its main frontage and entrance on East Merrimack street, it fronts on both stretches of Davidson street, that executes a 90 degree turn at the building's north-west corner. It is of substantial mill construction, faced with white made stone and granite. The main entrance on East Merrimack street is spacious and pleasing to the eye and is being enhanced by the laying of a new granolithic sidewalk.

The Salesroom
On entering the building one steps at once into the main salesroom, with lofty ceiling, supported by four massive pillars; fawn colored walls with panels of darker shade and beautified by attractive electrical fixtures hung by brass chains. The room is 75 feet long by 26 feet wide and will accommodate many models of cars. In the rear on either side of a beautiful staircase, with winding mahogany balustrade, are rest rooms for men and women. The staircase leads to a mezzanine on which are the company offices, Mr. Emerson's on the right and Mr. Hale's on the left, and with the clerical department in between.

The sales room is large enough to show 14 cars comfortably. Tomorrow there will be nearly this number of models on the floor, so arranged as to allow for easy and thorough inspection. There will limousines, sedans, coupes and touring and roadster types of both four and six cylinder motor plants. As was on exhibit at the recent Boston show, there is a cut-out chassis on display allowing for an intimate glance into the entire system of operation and in front of one of the main windows is the beautiful new sports model finished in maroon, with nickel trimmings and carrying every possible accessory. This car already has been much admired and seems destined to become extremely popular.

The beauty of the entire display is enhanced by natural light which floods the large room. It streams in through ornamental skylights and even on the

New Home of Lowell Buick Co. Will Be Thrown Open to Public Tomorrow

Splendidly Built and Equipped Structure

Continued

Greatest sort of a day the interior never will seem unfriendly.

A comfortably pitched ramp runs down to the used car salesroom in the rear. It will be for the display of used cars only and its dimensions of 60 by 74 feet are adequate to care for more than a score of machines.

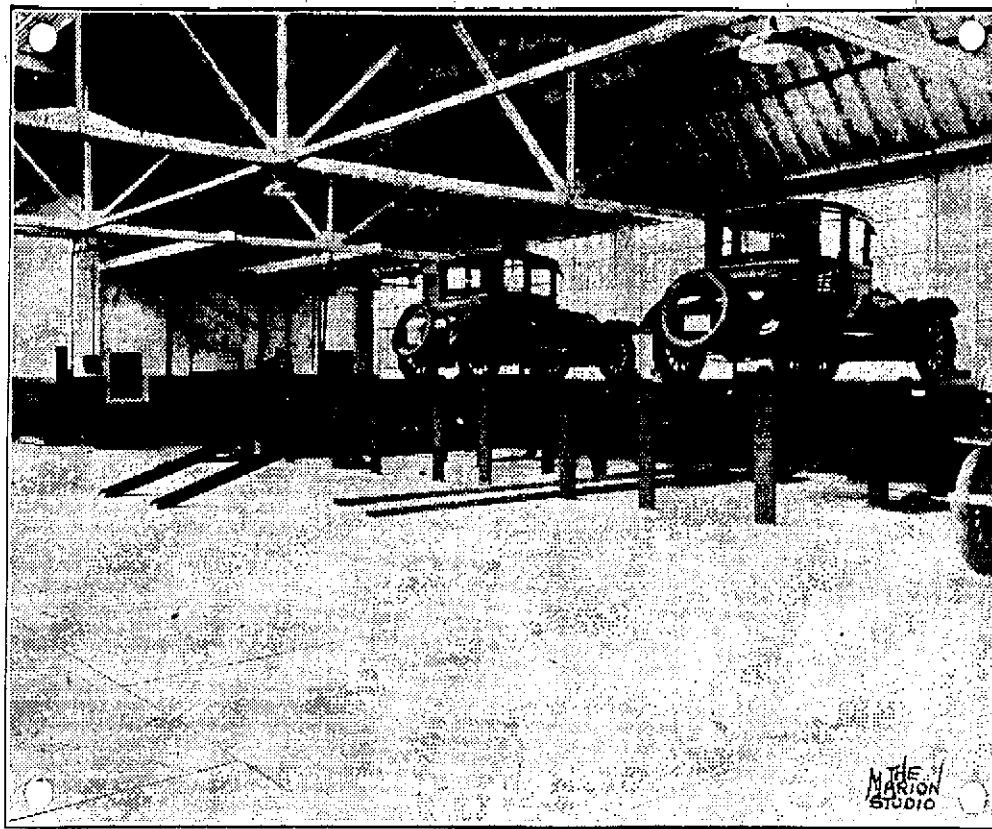

The Repair Shop
Turning to the right from the used car room one passes into the repair shop or service room, 128 feet long and with a width of approximately 80 feet. Of faithful mill construction with overhead steel girders, the room is of unusually large area. Its size being accentuated by the absence of any sustaining posts. Machinery has been installed to meet all the demands of the trade and here it will be possible

to give the maximum of repair service in the minimum of time.

Parker Young who has been in charge of Buick repair service in Lowell since 1906, is at the head of the service personnel in the new building. Under his direction a score of men will be ready to give personal attention to Buick cars at all times. No plans have been made to attempt a transient garage business and no place has been set aside for storage. It is Buick sales and service exclusively.

For the past several years the Buick has maintained its service station in Arch street, but now that the new building is ready for occupancy, the plant there will be abandoned. That part of the building in Appleton street that has been used by the company as a salesroom, will be maintained, but only as a storage plant.

One corner of the repair shop has been partitioned off as a parts room, with the walls lined with steel bins that also extend in rows in the center of the floor. A Buick motor car, the trade and here it will be possible

from the bins, and assembled equipment just outside the door.

Sufficient space has been left in Davidson street to allow for gasoline and oil service stations, several of which have been installed.

In the basement of the repair shop there is a splendid washroom for employees with not only lavatory facilities, but shower baths as well. Each employee has a steel clothes locker in this room, also.

Arthur F. Davis was the architect of the building and in speaking of the completed job today said that it is a structure of which the city may well be proud. "Specifications not only were lived up to," he said, "but in many instances were improved upon."

The general contract was held by C. W. Douglas. His men took care of all the brick work, cement work, runs, walks, etc. The trusses and heavy iron work were done by the Donnelly Iron Works. The J. L. Douglas Co. did the roofing, galvanized iron work and skylights, while the salesroom special flooring was laid by the Special Service Flooring company of New York.

Emerson & Norris Co. of Brighton had the contract for the made stone and cement work. The painting was done by B. C. Pearson and the stenciling by the Charles Holmes Co. Pratt & Forrest furnished the inside wood finish and lumber. Hobson & Lawler installed the heating plant and the plumbing was done by John E. Drury. Tucke & Parker did the electrical work and steel sashes were furnished by the Truscon Steel Co. of Boston.

SPECIAL POLICEMEN

Charles H. Wheeler, Parker H. Young and Robert Hall have been appointed special policemen at the new Buick garage on East Merrimack and Davidson streets, where they are employed as watchmen or caretakers by the Lowell Buick Co.

MR. LAPORTE SURPRISED

Philippe G. Laporte, a registered druggist in the employ of the Lowell pharmacy, who recently purchased the Foyard drug store in Mammoth road, was agreeably surprised last evening at the home of Mr. Maurice Brassard in Varney street, when the boys of the pharmacy gathered to congratulate him and offer him their best wishes in his new venture. As a mark of esteem on the part of his fellow workers, Mr. Brassard presented Mr. Laporte a purse and a box of cigars. Entertainment numbers were given in the course of evening and a buffet luncheon was served.

Weeks Pleads for Big Army

Continued

Weeks said, "There is no evidence of foreign designs against us. We must, however, recognize that throughout the greater part of the world a condition of instability prevails which renders the permanence of world peace uncertain."

"It is certain that to remain weak and unprepared in the face of such a situation is to invite aggression. It is moreover, essential not only that we maintain a reasonable state of preparedness, but that it should be a matter of international knowledge that we are so prepared."

The army needs "stability," more than anything else, Mr. Weeks said, recounting the double cut in the strength of the force made last year and the consequent reorganizations required.

"If this situation is to continue from year to year," he added, "it must have a serious effect upon the development of our whole system of national defense."

Mr. Weeks said the house bill made "inadequate provision for the healthy growth of the national guard and for its proper field training." As to the

organized reserves, he pointed out that it was sought in peace times only to create the officer framework and the annual training of the reserve officers, on whom the war-time machine would depend. The war department had asked only funds to train 20,000 of the 65,000 reserve officers during the coming year as "the adequate provision" for keeping up their training since the war had been made, he said.

Mr. Weeks said he had been much impressed with the testimony already before the committee as to the physical, moral and educational value of military training. Statements by governors, educators and others on the point had been "most impressive," he said, and in his opinion "these collateral non-military benefits alone justified the department's training plans and the expense they involved."

The army service school system was of vital importance in any national preparedness plan, the war secretary declared.

"It is an interesting fact," he added, "that although our army school system was only partially developed before the war, its graduates furnished a very large percentage of those officers who were most conspicuously successful in the days of actual war."

As to the gas warfare, work of the army, Mr. Weeks said, that while ultimate abolition of such warfare might come by international agreement, "it would be fatal for us to give up the series of experiments and investigations which were conducted during the war and have been carried on since" until that moment had arrived. As to aviation, he expressed the opinion that the provision for its development in the army should be larger than the department was now asking, adding:

"I do not hesitate to predict that in any future war its importance will be greatly increased."

Drops Knife When Officer Pulls Revolver

LYNN, April 25.—A baker going to his work early today saw a man coming out of the Boston & Maine railroad station, and called Patrolman John P. Hines. When the man saw the officer, he is alleged to have drawn a knife and held it high above his head. He dropped it, however, when Hines drew a revolver. At the station the man gave the name of Charles A. Ward, 22 years old. He told the police he had ransacked the residence of Benjamin N. Johnson earlier in the night, but had taken nothing. He was charged with breaking and entering and attempted assault. The police said he had a record.

Want Duty on Shingles Restored

WASHINGTON, April 25.—Restoration of the house tariff bill duty of 50 cents a thousand on shingles was asked of the senate finance committee today by the 25 senators of the republican agricultural tariff bloc. Shingles are now on the free list.

Facts You Should Know When You Buy a Car

Surplus Power is furnished by Buick Valve-in-Head Motors.

Carburetors are automatically heated.

Crankcase or Radiator drained by turning a handle.

Oil Pumps are self-thawing.

Rocker Arms automatically lubricated.

Radiator easily repaired by inserting sections.

Clutch positive in action, still a child can operate it.

Gear Shift made by a slight touch of the hand.

Steering a Buick is like child's play.

Steering Rod or drag link all one piece.

Universal Joint automatically lubricated.

Frame scientifically designed, extra strong.

Third Member absorbs all driving strains, not the springs.

Brakes very efficient, easily adjusted.

Rear Axle special design, correctly built.

Read Room plenty, not too much.

Twelve Models of Buick cars make it possible for you to secure the type of car you desire.

More Facts You Should Know!

- 1 For the calendar year, January 1, 1921, to January 1, 1922, Buick built and actually sold over 80,000 automobiles.
- 2 These sales for the calendar year 1921 exceeded by over 12,000 cars the sales of any automobile manufacturer having a six-cylinder automobile in its line.
- 3 These sales for this period likewise represent a volume of business greater by over \$9,000,000 than the sales of any other automobile manufacturer excluding Ford.
- 4 These figures are taken from official reports and are absolutely reliable.

See the Special Six-54 Roadster

The Season's Most Popular Car, Completely Equipped—One of the Most Complete Jobs on the Market.

Specifications—Special Six-54 Roadster

In addition to the mechanical excellence of the Buick chassis, the Special Six-54 Roadster possesses the following standard equipment

Wheelbase—124 inches

Tires—32x4 1/2 Cord.

Wheels—Wire wheels, Hunk type, demountable at hub.

Gear Ratio—4 1-2 to 1.

Spring—Soft, easy riding springs with snubbers, both front and rear.

Lamps—Special design drum type headlamps and cowl lamps.

Spotlight—All nickel-plated with switch mounted on instrument board.

Nickel-plated Radiator.

Deluxe Moto-meter with dumb-bell type radiator cap.

Adjustable Sunshade attached to windshield post. Sunshade can be used when top is folded. Shade easily removed.

Windshield Wings of beveled plate glass, readily adjustable. Windshield adjusting nuts on inside of post, very accessible.

Ventilator in top of cowl, adjustable from instrument board.

Instrument Board neatly arranged, trimmed in leather, and equipped with:

Combination clock and speedometer.

Combination oil gauge, ammeter and gasoline gauge.

Ventilator control.

Cigar lighter.

Instrument lamp.

Spotlight switch.

Controls—Nickel-plated transmission control and emergency brake lever. Walnut lever ball.

Steering Wheel of walnut with walnut horn button.

Foot Pocket in left hand door and side curtain pocket in right hand door.

Threshold Plates of special etched aluminum.

Step Plates—Rubber running board step plates with nickel silver guards on side apron.

Removable Carpet on top and floor boards.

Battery Door—Trap door in floor boards for filling and inspecting battery.

Leather Trimming specially embossed, with color to match body.

Storage Space—Large compartment for storage packages back of driver's seat, equipped with Yale lock in door. Additional luggage compartment in rear deck, flush type door and lock.

Spare Wheel Carrier, extra strong, adaptable for two wheels.

Gasoline Tank Filler on right hand side, readily accessible for filling.

Rear Fender Wings of special design to keep mud off rear deck.

Nickel-plated Deck Rails to protect deck when top is lowered. Nickel running board binding.

Nickel-plated Hood Fasteners

Khaki Top with special nickel and leather binding.

Curtain Light in rear, of large heavy-duty plate glass. Special weather-proof side curtains with clear vision lights and signal pocket.

Price of the Special Six-54 Roadster \$1785

L. O. B. Factory, Flint, Michigan.

Price and specifications subject to change without notice.

We have on exhibition a Buick Chassis with all working parts in sight, electrically controlled.

ORGANIZING BOY SCOUTS MAYOR WRITES TO CONLEY

Charity Department Head
Responsible for All Ma-
terials and Supplies

Careful Record Must Be Kept of Goods Disposed of at Hospital

Mayor George H. Brown today notified Supt. Martin Conley of the charity department that as head of the

Chelmsford street hospital, he will be held strictly accountable for all materials and supplies received at the institution, as to their weight, quality and quantity and, in addition, the same accountability will be demanded in relation to all products of the hospital that are disposed of.

Notice was given to Supt. Conley in the form of a letter, worded as follows:

"The products of the Chalmersford street hospital when disposed of must be entered daily into a journal kept expressly for that purpose and open to public inspection. All cases where the products are exchanged for any other commodity, must also be entered; the day and date at the

"Everything that comes into the institution must be weighed, so if there is any error in weight, it can be taken up and remedied at the time.

"You will be held responsible for any goods delivered that are not up to standard of weight, quality and quantity. The mayor should be immediately notified when materials do

WARSHIP ORDERED TO
SAIL TO CHINA

MANILA, April 25.—The flagship Huron of the Asiatic squadron received rush orders yesterday to sail to China because of disturbed conditions there. All officers and men were ordered aboard the Huron last night preparatory to departing this afternoon.

WASHINGTON, April 26.—The orders to the Huron were understood last night to be of a precautionary nature only in view of conditions in China. Should lives of Americans be endangered, it was pointed out, assistance could be rendered by the Huron, although, it is believed no landing orders are involved.

"HONEY" HAZZARD WANTS FREEDOM

Arthur G. (Honey) Hazzard yesterday filed a petition in the equity court at East Cambridge, asking to be released from confinement in the East Cambridge jail, where he was sent on April 2, after being adjudged in contempt of court for failure to comply with the court's decree. He states that he is without means of any sort and that it is impossible for him to comply with the court's order.

played despite the fact that the opening event on all Scout programs calls for a pledge of allegiance to the flag. If the meeting tonight creates enough local interest, Mr. Brown will push plans for a reorganization of this council. An executive scout leader may be chosen and assigned to this district. Pennsylvania, the field from which Mr. Brown has recently returned, is in a flourishing condition as far as this organization is concerned.

Mr. Brown was present last night at

The address party given by the thirteenth Street Baptist church troop to the pastor, Rev. Elmer E. West. The troop presented to Rev. Mr. West a book of camp pictures and a dictionary stand. Mr. Brown outlined the work of the scouts and urged organization with an idea to establishing a council here.

Walter H. Hickey, former superintendent of the Bay State street railway, and at the present time engaged in the rubber business, has purchased 15,000 square feet of land at the corner of Pine street and Georgia avenue in Tyler park and expects to start building a home within the next few months. Mr. Hickey recently sold his Westford street home in which he has

11 PERISH, 1500 HOMELESS IN TEXAS FLOOD

Pershing Says U.S. Could Have Prevented War

FRANCE'S ACTION MAY WRECK CONFERENCE

PERSHING URGES ARMY INCREASE

U. S. With Preparation and
Strong Leadership Could
Have Prevented War

Failure to Recognize Jealousy
Among Nations Proved
Disastrous

WASHINGTON, April 25.—The United States, "with adequate military preparation and under strong leadership," could have prevented the occurrence of the world war, Gen. Pershing declared today in testifying before the senate military committee in behalf of the war department's plea for an increase in the military establishment over that proposed by the house.

Failure to recognize the existence of "envy, jealousy and hatred" among nations as among individuals, he said, has invariably sent the United States unprepared into a great crisis and caused "unnecessary loss of life and left us staggering under financial burdens."

WEEKS PLEADS FOR BIG ARMY

Says 115,000 Enlisted
Strength "Below the Safe
Minimum Requirements"

Urges Force of 43,000 Officers
and 150,000 Men in
Regular Army

WASHINGTON, April 25.—The 115,000 enlisted strength army bill passed by the house provides a military structure "below the safe minimum requirements" of the nation, Secretary Weeks told the senate appropriations committee today in urging that appropriations for the next fiscal year should provide for a force of 43,000 officers and 150,000 men to be maintained in the regular army. Should the house proposals prevail, he added, not only would the regulars suffer, but overseas garrisons would be "inadequate" and the development of "citizen components of our national defense system" would be seriously checked.

"I am aware of no issue that at the present time threatens to involve us in international complications," he said.

\$500 FOR DEATH OF SON

Verdict Awarded William J.
Hunt in Superior Court

This Morning

After being out a little more than one hour, a superior court jury today awarded William J. Hunt of this city, \$500 for the death of his son, George T. who was killed when a machine in which he was driving collided with one operated by John H. Smith, the defendant in the case. Hunt brought suit to recover \$10,000. The accident happened one night last June, near the junction of Westford and Smith streets. According to the plaintiff's contention, he was driving a machine across Smith street, on Westford, when the defendant came out of Smith street and crashed into him. Young Hunt died in a local hospital 20 hours after the accident.

The case was started yesterday morning and took up both sessions and also part of this morning's session.

NOTICE

Bishop Delany Assembly, Fourth Degree, Knights of Columbus, Meeting Tonight at 8 o'clock, to take action on death of our late brother, Sir Knight Edward Cawley.

Signed,
WILLIAM H. GALLAGHER, F. H.

ARREST NEAR IN BREWSTER CASE

Prospects of Definite Developments in Winchester Murder Mystery Bright

Police Chief Receives Secret Telephone Calls From Detectives on Case

WINCHESTER, April 25.—Prospects of definite developments, possibly an arrest, in the search for the murderer of Ralph W. Brewster, Boston & Maine station agent, here last Thursday evening, were said to be good today, after Chief of Police McIntosh had received secret telephone calls from detectives working on the case in the vicinity of Pittsfield, N. H., Brewster's former home.

The police, working on the theory that Brewster had been slain in revenge, concentrated their efforts in Merrimack county, New Hampshire. Sergeant Thomas McCauley of the Winchester police, left on an early train for Pittsfield, while Chief McIntosh went to Boston. The object of the chief's visit was not made public, but he was expected to visit the office of District Attorney Saltonstall in Cambridge and possible Boston police headquarters.

GOVERNMENT TO END STRIKE

Washington Officials to Submit Proposal to Coal Operators and Union Leaders

Details Not Disclosed—Does Not Include Federal Supervision of Industry

WASHINGTON, April 25.—The government is working on a plan looking to the ending of the coal strike which it will submit soon to both operators and union leaders, it was said today at the White House.

Details of the plan were not disclosed, but it was said that it does not include federal supervision of the coal industry. The plan which now is receiving the attention of President Harding and his advisers was said to contemplate a permanent solution, if possible, of the basic problems of the industry. Presentation of the plan, it was indicated, would be made when a favorable opportunity presents itself.

HEAD OF ATHLONE BRIGADE SLAIN

Brig. Gen. Adamson Shot Dead in Streets of Athlone This Morning

Mutinuous Troops Demand Officer Throw Up Hands—Then Open Fire

RELEASE, April 25.—(By Associated Press)—Insurgent republican army troops today attacked a lorry carrying republican army regulars at Mullingar. Several shots were exchanged, marking the first fighting between the two factions. The regular troops were reinforced and made six arrests.

DUBLIN, April 25.—(By Associated Press)—Brigadier General Adamson, commanding the Athlone brigade of the regular Irish republican army, was shot dead today near the headquarters of the Independent Republican forces in Athlone.

An official communique issued from the headquarters of the regular army in Beggars' Bush barracks, this city, said:

"Brigadier General Adamson of the Athlone brigade, was shot dead in the streets of Athlone. The general was returning to the barracks, near the headquarters of the regular army, at 10 o'clock this morning."

COUNCIL WILL CONSIDER LOAN ORDERS TONIGHT

The city council at its special meeting tonight, will have two important loan orders to consider, one in the sum of \$20,000 for the purchase of the First street oval property from the Locks and Canals, and the other in the sum of \$10,000 for the development of Ames street as a parkway. Favorable action on each is forecast.

In addition, it is expected that some action will be taken on a number of the mayor's nominations, laid on the table at the meeting on April 13, including William A. Walsh for purchasing agent, William F. McGreevey for inspector of wires and Thomas F. Markham for a place on the board of assessors.

MEAT HIGHER IN MASS. THAN ANY OTHER STATE

BOSTON, April 25.—Federal reports show that the retail price of meat is higher in Massachusetts than in any other part of the country, said Eugene C. Hultman, chairman of the commission on necessities of life. In a letter read today before the senate ways and means committee.

The letter was in support of a resolution providing for an inquiry by the commission into conditions affecting the sale and distribution of meat products and the advisability of establishing public slaughter houses.

Mr. Hultman said he believed the raising of livestock should be fostered in this state.

TEXAS HIT HARD BY FLOOD

11 Known to Have Been Drowned and 1500 Are Homeless at Fort Worth

City Water Plant Out of Commission—Flood Follows Heavy Storm

FORT WORTH, Tex., April 25.—Eleven persons are known to have drowned and at least 1500 are homeless as a result of the flood conditions here, according to relief agencies. The city water plant is out of commission and other utilities endangered. The flood followed a heavy storm last night and this morning.

Nine inches of rain fell here between 10 o'clock last night and 10 o'clock this morning, breaking all previous records. Streaming already were at flood stage before the storm.

All ambulances in the city and scores of automobiles were pressed into service to rescue stricken families, citizens volunteering their services and cars.

A levee back of the Panther baseball park broke today. The water was half way up the right field grandstand. The water rushed around Arlington Heights and the north side and left those districts marooned.

The river rose 29.7 feet in 12 hours today to within 1.3 feet of the stage of the disastrous 1908 flood. Observers said that flood never produced the raging torrents which today followed the destruction of the levee above Panther park. The spillway of Lake Worth, reported to have kept out, was said to be holding and in no danger.

COL. STEVENS WITNESS

Lowell Man to Testify Before Senate Committee on Military Affairs

Col. Charles A. Stevens of Lowell is among a number of former 25th (Yankee) division officers who left Boston last night for Washington, to appear today as witnesses at a hearing before the senate committee on military affairs to protest the proposed promotion of Lieut. Col. Duncan K. Major, former chief of staff of the Yankee division.

Other officers summoned by the committee to give testimony are Major John W. Hyatt, former personal aide to Major General Clarence R. Edwards; Major Andrew L. Pendleton and Captain Judson Hannigan, aide to General Edwards. National guard officers who will testify with Col. Stevens are Brig. Gen. Charles N. Cole, Brig. Gen. Edward L. Logan, Col. John D. Murphy.

Head of French Delegation at Genoa Gets Orders From Paris to Insist Upon Poincaré's Terms

LADY ASTOR MAKES PLEA

Says All Europe Looks to America for Great Moral Lead—Asks Help

Pays Tribute to American Foreign Correspondents at A. P. Luncheon

NEW YORK, April 25.—Lady Astor, in the speech which she prepared today for the annual luncheon of The Associated Press at the Waldorf-Astoria, defined as the pearl of great price which she was striving to place in public life by entering politics "what any man gets from his mother and most men get from their wives if they choose wisely—unselfishness, vision, courage and cleanliness."

But, she said, to turn to practical politics, what the world now needed

STRIKERS AT CITY HALL

Demand Manchester Mayor Give Reasons for Failure to Attend Conference

MANCHESTER, N. H., April 25.—Between 400 and 500 members of the United Textile Workers' locals of this city marched in a body to the city hall here today to demand of Mayor George B. Trudel his reasons for not attending the conference of New Hampshire mayors held in Dover, yesterday at which plans were formulated to break the textile deadlock.

The mayor gave as his reason that he believed Manchester had not been given sufficient consideration in naming the time and date of the meeting but added that he would attend the next meeting of this nature.

The Amoskeag Manufacturing Co.'s declaration of a dividend of \$150 on common stock, was criticized today in a statement made public by Vice-President James Stier of the United Textile Workers, leader of the local strike forces.

PICKET SHOT BY DEPUTY SHERIFF

Casimiro Almeida Shot in Back of Neck, Near Jenckes Mill, Pawtucket

Shooting Followed Alleged Attempt to Stop Worker Going to Mill

PAWTUCKET, R. I., April 25.—Casimiro Almeida, a picket, was shot in the back of the neck by Deputy Sheriff Lewis near the plant of the Jenckes Spinning company, today, after it is alleged, Almeida had attempted to stop a worker going to the Jenckes mill. Almeida was taken to the hospital where it was said his wound was dangerous.

According to the police, pickets who were not allowed near the mill gates assembled in an adjoining street and

DISCUSS REVISION OF BUILDING ORDINANCE

Methods to be employed in the revision of the present building ordinance for Lowell were discussed at length this noon at the rooms of the chamber of commerce by men representing the fire prevention committee of the chamber and a special committee from the Lowell Contractors' association sitting as a joint committee.

It was decided that the work of revision can best be done by dividing the ordinance into sections, headed as follows: Inspection, fire, fire hazards and prevention and construction, with one section to be assigned to each of four sub-committees appointed. There will also be a special group formed under the leadership of A. L. Gibbons, representing the electrical workers, to study sections of the ordinance that deal with wiring.

Those present at the meeting were: John W. Robinson, Burton H. Wiggin, John O'Connor, E. W. Douglas, E. W. Bailey, Frank Dodge, Albert Bergeron, George W. Stewart, Fred C. Church, Jr., Edward F. Saunders, fire chief, Percy Gilbert, C. B. Garmon, Ralph Rutels, Frank Connor, Arthur C. Snelling, A. L. Gibbons and George F. Wells, secretary of the chamber. John O'Connor was chosen chairman. The sub-committees will report back to the men in body, as soon as any changes found necessary are made in the sections of the ordinance.

A substance known as pulverized cotton and resembling flour in its color and texture has found a place and is being put in many uses.

Seaplane, With Six Aboard, Missing

KEY WEST, Fla., April 25.—The commercial seaplane Santa Maria, which left here Monday at 6.10 a. m., for Nassau with six persons aboard, including a woman, has not arrived at its destination and naval seaplanes of the Atlantic squadron left here early today to search for it.

U. S. Reserves Rights on War Debts

LONDON, April 25.—(By Associated Press)—Richard Washburn Child, American ambassador to Italy, has notified the Genoa conference that the United States reserves all its rights on the repayment of war debts due from Russia, says a despatch to the Evening Standard from Genoa. These debts include private bankers' loans and advances to the Kerensky government.

Turn Down All Offers For Muscle Shoals

WASHINGTON, April 25.—(By Associated Press)—Considering by the house military committee in executive session of the various private offers for the government projects at Muscle Shoals, Ala., has reached the stage it was said today on good authority, where it appears probable that none of the offers will be recommended to the house in their present form for acceptance.

WITHDRAWAL ALTERNATIVE

To Press for 48-Hour Ultimatum to Russia or Else Break From Conference

Session Again Drifting Toward Rocks as Result of New Demands of Soviets

LONDON, April 25.—(By Associated Press)—There is reliable information, declares a Central News despatch from Genoa today, that M. Barthou of the French delegation, received telegraphically this morning explicit instructions to insist upon the terms contained in Premier Poincaré's speech of Monday.

The French delegation, says the message, has declared it would press for a 48-hour ultimatum to Russia or else break from the conference altogether. Premier Poincaré's speech created great consternation in conference circles, it is added.

A statement just issued by Eugene Hultman, Fuel Administrator of Massachusetts, is as follows:—

"The market price of Anthracite has not advanced, but unsuccessful attempts have been made to increase the price at the mines. The suspension in production is practically complete, and if the strike should continue beyond June 1st the people of Massachusetts will experience difficulties in regard to the price and supply of Anthracite for their next winter's domestic fuel requirements, as the physical capacity of the mines to produce an ample supply will be taxed to the limit during the remainder of the season."

This is an impartial opinion and bears out the advice we have given on the present strike situation. We say again, we do not advise putting in your full supply for next season, but all who can should put in enough to last two months in the fall. This will relieve the strain that is bound to come if the strike lasts until July.

MORTON E. AGANS

Do You Have Backache Over Kidneys? Limbs Swell?

Try to Follow Mr. Agans' Advice

Albany, N. Y.—"Ever since my early boyhood I have suffered from weak kidneys and as I grew older they became worse. I got so I suffered continually with backache, my limbs would swell, my joints became stiff with rheumatism and my bladder became weak. I would have to quit my work entirely several weeks at a time. I was 'all in' and nearly 'down and out' with this ailment. Nothing seemed to give me any relief although I tried everything I could hear of in the medicine line. I was finally advised to try Dr. Pierce's Anuric (Kidney and Backache) Tablets and through the persistent use of this medicine I was completely cured of all my kidney ailment and bladder weakness and I have never had any trouble from these ailments since. The 'Anuric' Tablets have made a new man of me and I never fail to recommend them when I hear a complaint from anyone suffering with kidney or bladder trouble. Before I took 'Anuric' I had almost given up hope of ever getting better, but, thanks to Dr. Pierce's Anuric, I am in good health and able to work every day." Morton E. Agans, 464 Wash. Ave.

Obtain these Anuric (acid) Tablets of Dr. Pierce's at your nearest drug store; or send 10c for trial package to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.—Adv.

FISH FREE TODAY AT SAUNDERS MARKET

The distribution of 2000 pounds of absolutely fresh shore haddock among the needy of the city began this morning at 8:30 o'clock at Saunders' market, on Gorham street, and by the response it must be gratifying indeed to the management to see their efforts meeting with such marked success. As announced in yesterday's Sun, each family that gets an order from the city poor department, the Knights of Columbus, the Salvation Army or any of the other charitable organizations of the city having authority would receive one fish. These fish average about three pounds each. If it were made known that there are children in the family, a larger fish would be given. The management of the store realizes that there is much need in the city at the present time, due to the scarcity of employment, sickness and numerous other causes, and at this time takes the opportunity of aiding those less fortunate than the many customers of the store. The fact that a fish is received, in no way places anyone under the obligation of buying anything else in the store. Some of the local churches aided by sending people to the store whom they thought could profit by the kindness of the management.

GEN. AGUINALDO NOT COMING

MANILA, April 25.—Gen. Emilio Aguinaldo, who was chosen honorary chairman of the Independence Mission to the United States, will not accompany the mission on account of pressing business engagements here, it was announced today. He hopes to attend the Spanish-American convention in Los Angeles in August and later join the mission.

HOW HE CURED HIS RUPTURE

Old Sea Captain Cured His Own Rupture After Doctors Said "Operate or Die"

His Remedy and Book Sent Free

Captain Collings sailed the seas for many years; then he sustained a bad double rupture that soon forced him to not only remain ashore, but kept him bedridden for years. He tried doctor after doctor and truss after truss. No results! Finally, he was assured that he must submit to a dangerous and abortive operation or die. He did neither! He cured himself instead.

Captain Collings made a study of himself, of his condition—and at last he was rewarded by the finding of the method that so quickly made him a well, strong, vigorous and happy man. Anyone can use the same method; it's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Captain Collings book telling all about how he cured himself, and how anyone may follow the same treatment in their own home without any trouble. The book and medicine are FREE. They will be sent prepaid to any ruptured sufferer who will fill out the below coupon. But send it right away—now—before you put down this paper.

FREE RUPTURE BOOK AND REMEDY COUPON

Capt. W. A. Collings (Inc.)
Box 2743, Watertown, N. Y.

NO PLAN FOR MILITARY MARRIED IN AIRPLANE OCCUPATION

PARIS, April 25 (by the Associated Press).—Premier Poincare has not adopted any plan for the further military occupation of Germany in case of a default in the German reparation payments on May 31, it was asserted in official circles today.

The premier's speech yesterday, in which he declared France would, if necessary, undertake alone to see that the treaty of Versailles was executed in case of a default, is said to have been intended to make the government's policy clear and put an end to the criticisms that France was persisting in an obscure attitude.

There is plenty of time to consider what should best be done to oblige Germany to respect her engagements, it is pointed out.

The sentiments expressed by Premier Poincare, yesterday, at Bar-le-Duc were echoed throughout France by leading public men at the sessions of the general councils of the departments.

MISS FAIRBROTHER HONORED

One of the prettiest showers of the season was held last evening at the Y.W.C.A., when about 75 friends gathered in honor of Miss Marjorie Fairbrother, who is soon to become the bride of Mr. Arthur Melvin of Robbing street. She received many beautiful and useful gifts. The room was prettily decorated in pink and white. The surprise feature of the evening was a mock marriage ceremony which was carried out with great success by Miss Mae Dunn as parson, Olga Emory, bride, Peggy McGerane, groom, Madeline Casey, bridesmaid, Agnes Owens, best man. Refreshments were served, and dancing was enjoyed until a late hour, after which the party broke up, wishing Miss Fairbrother much happiness.

MARRIED IN AIRPLANE

Nuptial Kiss Planted 5000 Feet in Clouds Broadcast to Ears of Thousands

NEW YORK, April 25.—A nuptial kiss planted 5000 feet in the clouds over Times square was broadcast from the cockpit of a speeding aeroplane to the ears of thousands of radio fans last yesterday, when Miss Sarah Cokelair, Brooklyn, nurse, and Albert P. Schacke, athletic director of the Veterans' Gymnasium camp, became wife and husband.

Lieut. Belvin W. Maynard, the "flying parson," performed the ceremony. Lieut. Bert Acosta piloted the party in a Jockey "half moon" biplane and at the appropriate moment affixed his signature to the marriage document and turned his back on the bridal kins.

Each detail of the ceremony, except the blush, was transmitted to radio fans by apparatus on the plane. When the ceremony was over, Mr. and Mrs. Schacke started their honeymoon by sailing over New York programs of the spring flying show to be held at Curtis field next Sunday.

Today, the couple will go by air to Albany, Schenectady, Syracuse and—perhaps—Niagara Falls.

THEY PAY WITH BOGUS CHECKS

Harry Hamilton, chief of the Fort Worth, Tex., police has solicited aid of the local chamber of commerce in the apprehension of it. H. Whitting and wife, alias Verna McLean, who are charged with passing bogus checks on Fort Worth merchants.

The chief has requested in a circular letter, that the chamber notify the merchant's association, commercial lawyers, collecting agencies, Whittys Overland agencies, automobile license

bureaus and others of the modus operandi of the pair.

The couple, with their two children, are touring the country in a Willys-Knight touring car. They generally stop at some exclusive hotel, prior to engaging an expensive apartment. Merchandise from the leading stores is ordered and C.O.D. shipments requested. Payment by bogus checks follows.

It is said that Whitting will call on commercial lawyers and collecting agencies with a view to establishing

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

himself and handling claims and successful will embezzle money obtained.

A New England Druggist Tells Why He Uses Sanalt the Sensible Tonic in His Own Family

MR. WM. D. STRACHAN, 883 SMITHFIELD AVE., PAWTUCKET, R. I., IS ONE OF THE MOST WIDELY KNOWN AND RESPECTED CITIZENS OF HIS COMMUNITY. WHAT HE SAYS IS EXPRESSED IN A FEW WORDS, BUT IT MEANS MUCH.

"My brother and I have been greatly benefited by taking Sanalt for chronic constipation, from which we had suffered for years."

Probably seven people out of every ten who read this advertisement will be able to sympathize to some extent with the Strachan brothers.

Very eminent medical authorities state that at least 70 per cent. of human ills either cause or are caused by constipation. Millions of people who have turned to cathartics for help have only found temporary relief. As soon as the cathartic medicine passes through the system, the condition is worse than ever.

Sanalt the Sensible Tonic is not a cathartic. It does not force any of the organs to act, but has such a general restorative effect that it enables stomach, liver, kidneys, and bowels to act naturally and thus purify and enrich the blood, with the result that general good health is restored.

Any obliging druggist will sell you Sanalt.

Radiographs

Radio Soon Will Be Free and World-Wide, Says Amateur Leader

By N.E.A. Service
NEW YORK, April 25.—"The time is almost here when the free exchange of private radio communication between cities of all lands will occur at more or less frequent intervals." That is the statement of Paul F. Godley, leader of radio amateurs in America. Godley is the first man to receive a trans-Atlantic wireless message on the short wave length.

"The American boy has set the whole world a-buzzin'," says Godley. "And Europe will be stepping along at a fast clip, too."

Within the next four years, Godley estimates, five million American homes will be equipped with radio sets.

"A few months ago," he explains, "to show the vast increasing interest in radio, 'the world at large knew very little about radio communication. Now we see Holland taking every advantage of radiophone broadcasting. Mexico follows suit with a similar policy."

"South American countries are greatly interested in the possibilities of this wonderful thing and recently France legalized amateur transmitting and receiving."

"English amateurs, who never before

PAUL F. GODLEY

could go to the supreme court on exceptions. Throughout the trial he conducted his own defense, but did not testify.

In 1918 Mr. Ulmer was engaged by the heirs of Edmund F. Wood as counsel for the Henry Wood Sons company and the Wagon Rose conservatory, and received as compensation \$350 a month from each corporation. Eventually it was claimed Ulmer obtained control of both corporations, and Mrs. Mary E. Hand, a daughter of Edmund Wood, testified that she was ousted from the office of treasurer, which she had filled for some time. Mrs. Hand in her evidence said that she pointed out to Ulmer liabilities of the Henry Wood Sons company, not included in the return for 1919, and that Ulmer declared that if an accurate certificate were filed the company could not obtain credit.

The penalty provided by the statute under which the indictment was returned is a fine not exceeding \$5000 and imprisonment for not more than three years, or both.

JURY FINDS ATTORNEY ULMER GUILTY

BOSTON, April 25.—Concluding a trial which lasted for two weeks before Judge Fosbick in the superior criminal court, a jury, after deliberating two hours yesterday afternoon, returned a verdict of guilty on seven out of eight counts in an indictment against Attorney V. Edwin Ulmer of Brookline for making false returns of conditions of the Henry Wood Sons company to the commissioner of corporations for the year 1919.

These returns were filed at the state house on Nov. 30 and Dec. 10, 1920, and while the government did not contend that Mr. Ulmer personally presented the returns, it was claimed that they were prepared under his direction. Mr. Ulmer, after the verdict had been declared, announced that he

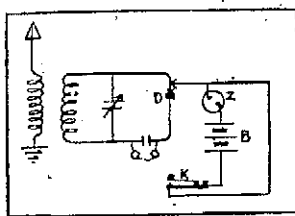

GETTING MOST OUT OF CRYSTAL

By R. L. DUNCAN
Director, Radio Institute of America
It is often difficult for the amateur to find the sensitive spot on his crystal detector.

By using a simple high frequency buzzer and a small ordinary dry cell it is easy to adjust the fine wire on the selective spot of the galena.

On the diagram, Z represents the buzzer, B the battery, K the small key and D, the detector.

This key may be made of a small

piece of sheet brass. A small round piece of wood and a stiff, springy wire are used for the contact point driven into one end of the wood.

A small knob is fitted on one end of the spring as a push button and the other end is fastened to the wooden base at a point opposite the brass wire.

When a contact is made by pressing the spring down to the tack head, the circuit is closed and the buzzer vibrates.

Adjust the fine catwhisker wire leading to the galena while the buzzer is vibrating until the sound is heard in the head phones.

By picking around in this manner you will be able to locate the best spot on the galena. After this point is found, immediately release the buzzer current, although the buzzer circuit does not have to be disconnected from the set.

Do not touch the surface of the galena with your bare hands. When the galena seems lifeless, wash it with alcohol or file the surface with a medium groove file.

A new sensitive point will probably be discovered.

RADIO PRIMER

Ion—An atom of matter whose definite amount of electrons has been removed or decreased so as to give it an electrical charge. When the electrons are decreased, the atom becomes a positive ion. When electrons are added, the atom is converted to a negative ion.

AN ENEMY TO GOOD HEALTH

Good health has no greater enemy than constipation. Foley Cathartic Tablets are mild but sure in action. They banish biliousness, bloating, bad breath, coated tongue, sick headache, sour stomach and other ills caused by indigestion. Take one tonight and you will feel better in the morning.

MEETING AT DRACUT CENTRE CHURCH

The Andover Association of Congregational Churches and Ministers opened its annual meeting at the First Congregational church, Dracut Centre, this afternoon. The exercises opened at 2:45 o'clock with devotional service and this was followed by report of officers and committees. The following program of addresses was then carried out: "Congregational Bonds of Fellowship," Rev. F. W. Hodgdon, Newbury; "Evangelicalism in Social Life," Miss Emily M. Skilton of Lowell and Miss Fannie B. Davis of North Andover; "Christian Ideals for the Social Life," Rev. Richard Peters, Lowell.

A business session is scheduled to follow the address, and supper at 6 o'clock.

The evening session will open at 7, and the principal speaker will be Rev. Frederick E. Emrich, D.D., M., of Boston. The topic will be "The Task of Bringing the Message of Christ to the People of Today."

MIDDLESEX WOMEN'S CLUB

Books recommended for the season by the State Federation of Women's Clubs for the purpose of review, were discussed and reviewed at the weekly meeting of the Middlesex Women's Club yesterday by several of the club members. Notable among the reviews was that of Mrs. Ralph Shaw on "The Life of Queen Victoria," and "The Americanization of Edward Bok" was capably handled by Miss Bertha Rowlandson. Many of the most popular works of fiction were given an excellent exposition by Mrs. C. E. French. The meeting was held in Middlesex hall, instead of the larger Colonial hall which is used when guests are present.

The largest freight engine weighs 450 tons and has actually drawn a load of 17,000 tons on a slight upgrade.

CIVIL SERVICE SCANDAL GIVEN TO ALLEN

BOSTON, April 25.—As a sequel to the recent disclosures in the state civil service commission, involving the advance sale of examination papers to members of the Boston police department who sought promotion, Chairman Payson Dana of the commission yesterday placed the evidence in the hands of the attorney general for any action he might care to take.

Announcement of this step was made by Chairman Dana in a report to Gov. Cox, in which he expressed confidence that papers were passed illegally in only two examinations and that there was no danger of a repetition of the offense.

The discharge of two employees of the commission and the incrimination of a courthouse attaché and a police sergeant followed the disclosure.

The distance an arrow can be sent by a good archer is from 200 to 250 yards.

STARVED NERVES

The importance of building up the blood to correct nervous troubles is shown by the experience of Mrs. Belle C. Melendy, of No. 1 Cedar street, Concord, N. H. She says: "I suffered from neuritis and nothing seemed to give me permanent relief. The pain was in my right shoulder blade and at times it seemed as though it would drive me crazy. My appetite was bad, my nerves were unstrung and I was tired and worn out."

"After reading about Dr. Williams' Pink Pills I gave them a trial and in a short time I noticed that I was being benefited. The pain in my shoulder grew less and finally disappeared. I have not had it since. My color improved and I gained in strength."

"I am grateful to Dr. Williams' Pink Pills and am glad to speak a good word for them."

Dr. Williams' Pink Pills are sold by all druggists. Price sixty cents. Write to the Dr. Williams' Medicine Co., Schenectady, N. Y., for free booklet on nervous disorders.—Adv.

WILL HOLD MINSTREL SHOW AND DANCE

Pawtucketville talent in minstrelsy will be featured in Associate Hall on Tuesday evening May 2, when the Holy Name society of St. Columba's parish presents its much heralded minstrel show and dance. For weeks every member of the committee on arrangements has been working at top speed and a number of encouraging rehearsals have been held at which the members of the minstrel groups have demonstrated great versatility. The ladies of the parish have volunteered to conduct novelty and refreshment tables.

The members of the committee in charge are as follows:

John Carroll, chairman, Patrick Harrington, Bartholomew Mullen, Jas. Gorman, John Stapleton, Timothy O'Neill, Edward J. McCarthy, Richard E. Place, Charles A. Gallagher, Andrew Doyle, Cornelius F. Cronin, Francis Ralla, Charles McQuillan, Andrew Molloy, John O'Neill and Joseph Quigley.

The novelty table will be under the supervision of Mrs. Fred Hammond, assisted by Mrs. George Holden, Miss Minnie Farley and Miss Katherine Carroll. The refreshment table will be cared for by Mrs. Patrick Brosnan, with a number of assistants. Walter J. McDonald has been named as assistant treasurer.

MAY USE MONEY FOR CENTENNIAL

If the provisions of the bequest of Shapgood Wright can be interpreted so that money in the fund may be used for the purposes of a centennial celebration, Lowell will have in the vicinity of \$7000 to spend in 1925, which is the 100th anniversary of the founding of Lowell as a town.

In 1876, Mr. Wright gave the city \$1000, with the understanding that it should be put on interest and at the end of 50 years the accrued interest should be used for the "benefit and improvement" of the citizens of Lowell. The original bequest of \$1000 was augmented in 1918 when the municipal council voted to accept a further bequest of \$6343.75 in accord with a provision of Mr. Wright's will.

Before long definite plans for the centennial celebration will begin to take shape and if it is found that this money can properly be used, it will be of great benefit.

Civil War Veteran Perfects Cane Harvester After Twenty Years' Work

TWO VIEWS OF GEORGE D. LUCE'S CANE HARVESTER AT WORK

By N.E.A. Service
HAMMOND, La., April 24.—Twenty years of experimentation and the expenditure of more than half a million dollars have brought forth a mechanical cane harvester which is expected to have far-reaching effect on the sugar business.

The inventor is George D. Luce of Hammond, a veteran of the Civil war, who has lived in the south since be-

ing mustered out of the service. Luce became interested in the harvesting of cane. Research showed him that there had been no advancement in the industry for hundreds of years.

So he sold his moss business in New Orleans and made model after model of a cane harvester. As mistakes were discovered he would correct them.

Recently he perfected a machine which experts say is just what the cane business has been waiting for for 8000 years. The machine cuts the cane at the last ripe joint, strips the leaves and tops the stalks.

A carrier device dumps the stalks in bundles or unloads them in a wagon. The new harvester is now being manufactured and will shortly be on the market.

current year, ending March 31, which shows a gross income of \$649,024, as compared with gross income of \$644,515 for the same three months last year. The operating revenue and income this period of the current year was \$2,630,337, as against \$2,764,979 for the same period last year, while the operating expenses and taxes fell from \$2,220,061 for the three months last year to \$1,931,463 for the current three months.

The fixed charges and rentals were \$359,042 for the past three months and

\$399,333 for the same three months last year. Miscellaneous deductions increased from \$4714 for the three months of 1921 to \$7441 for the same period this year. The net income was \$252,541 for the three months just ended as compared with a net income of \$140,208 for the same period last year.

The statement explains that in order to meet the cost of service required for the period the sum of \$590,502 had to be made, while \$590,502

PAINS ACROSS SMALL OF BACK

Husband Helped in Housework—
Lydia E. Pinkham's Vegetable
Compound Made Her Strong

Foster, Oregon.—"I used Lydia E. Pinkham's Vegetable Compound for pains across the small of my back. They bothered me so badly that I could do my work only with the help of my husband. One day he saw the 'ad.' in our paper telling what Lydia E. Pinkham's Vegetable Compound is doing for women, so I began to take it. It has helped me wonderfully. I am feeling fine, do all my housework and washing for seven in the family. I have been irregular too, and now am all right. I am telling my friends what it has done for me and am sure it will do good for others. You can use this letter as a testimonial. I will stand up for Lydia E. Pinkham's Vegetable Compound any time."—Mrs. Wm. Juenke, Foster, Oregon.

Doing the housework for a family of seven is some task. If you, as a housewife, are troubled with backache, irregularities, are easily tired out and irritable, or have other disagreeable ailments caused by some weakness, give Lydia E. Pinkham's Vegetable Compound a trial. Let it help you.

378 was required for the same period last year.

HAMILTON AND NEBES TO MEET AGAIN

Forrest Hamilton of Portland, Me., who defeated Al Nebes of Lowell twice at Rockland, Me. last week, will be in town tonight and will try out the Kassino track. Hamilton is the amateur champion roller skater of Maine at from one to three miles, and from all reports he is a whirlwind skater. Judging from the way he trimmed the local tier he is some boy on the rollers. Nebes offers no excuse for his defeat, the first two straight in six years, merely saying he was beaten and Hamilton is some skater and a clean worker. It will be remembered that Hamilton skated here in Lowell 16 years ago in a six-day race, but at that time was a mere boy; but under the personal training of Clarence Hamilton, his brother, who held the championship of the world four years and also broke the world's one mile record, young Forrest has turned out to be the real goods as a skater. Al Nebes, the local wizard, has been for 17 years the most consistent winner against the fastest skaters in the eastern states, defeating such champions as Billy Yale, of New Haven, Conn., N. E. champion, Willie Blackburn of New York, eastern states champion; Eglinton of London, England, International champion; Grew of Canada, Canadian champion, and over 450 others. He has lost but 12 races in 17 years, some record for a skater to hold; and Al is well known all over this section of the country as a marathon runner, ice skater and bicycle rider, but roller skating is his favorite sport. On Wednesday night he will skate Hamilton three miles, Thursday, five miles, and Friday seven miles.

JUSTICE BRANDEIS' DAUGHTER A LAWYER

NEW YORK, April 25.—Like father, like daughter is the 1922 version of the ancient adage, as applied by Miss Susan Brandeis, daughter of Justice Brandeis of the United States Supreme court, who yesterday announced that she had "hung out her shingle" as a full fledged attorney at law. Miss Brandeis has been an assistant in the office of William Hayward, United States district attorney for New York, and has formed a law partnership with Benjamin S. Kirsh, also on Col. Hayward's staff.

RATSHESKY FOR MEXICAN POST

WASHINGTON, April 25.—A. C. Ratshesky of Boston is being strongly pressed for ambassador to Mexico, in the event of the recognition of the Obregon government. Both Senator Lodge and Secretary of War Weeks have urged his appointment. There are indications that the Mexican situation may be cleared up in the near future. Informal negotiations have been going on for some time past. The settlement, of course, will turn on the recognition of American property rights in Mexico by the Obregon government.

CARD. O'CONNELL GLAD TO BE BACK

BOSTON, April 25.—Cardinal O'Connell was at home again today after an absence of three months, made necessary by his journey to Rome for the papal conclave. He arrived last night from New York.

"I am very glad to be back in Boston and to be able to take up my duties again," he said. "My health is as near perfect as I could hope for, and I am greatly rested by the trip and the ocean voyage."

WHAT KIND OF SOAP FOR A WASHING MACHINE

I always think of soap as the partner of a washer. Some soaps are lazy partners, others do their full share of the work.

Soaps that do not dissolve completely, that give light, frothy suds without substance, make a washing machine do more than its share of the work.

Rinso, the new kind of soap, helps the washer do its best work. Every grain is so pure and perfectly balanced that it loosens all the dirt. It prepares the way for the efficient operation of the machine. When you use Rinso you don't have to rub at all.

Whether they have a washing machine or not, women the country over are using Rinso in place of bar soap at every step of the family wash.

HENPECKED HUSBANDS

Meeting Place of Ancient
and Honorable Order Being
Kept a Strict Secret

LONDON, April 25.—The place for holding the annual meeting of the "Ancient and Honorable International Order of Henpecked Husbands," an organization having headquarters at Sowerby, near Bradford, is being kept a strict secret. Last year's meeting, to ensure freedom from wifely interference was held at an isolated spot on Blackstone Edge Moors.

Much time will be required at this year's gathering for the consideration of a long list of applications for membership, as each candidate must be severely cross-examined regarding his fitness to be dubbed "well and truly henpecked." The organization's stationery declares the order dated back to the year 380 B. C.

FRATERNAL NEWS

It was with sorrow that the members of Gen. Adelbert Ames camp, 19, S.W.V., were informed last evening that the next convention of the organization will not be held in this city as had been expected, for the delegates in convention at Stoughton last week selected Cambridge as the next convention city. The local camp had been very active in an attempt to carry the convention in this city, but without success. This announcement was made at a regular meeting of the camp with Commander Cryan in the chair. In the course of the meeting routine business was transacted and communications from headquarters were read and referred to the proper committees.

Lady Franklin Council

Last evening's meeting of Lady Franklin council, Sons and Daughters of Liberty was presided by a what in charge of Mrs. Helen Wyman. Routine business was transacted during the business session and this was followed by a brief meeting of the Ex-Councilors' association during which arrangements were made to attend the state council to be held in Springfield in May.

Loyal Integrity Lodge

Routine business was transacted at last evening's regular meeting of Loyal Integrity lodge, 6630, I.O.O.F., M.U., N.G. Earle Bruen occupied the chair and the white degree was conferred upon three members.

Walker: Rogers Post. The regular meeting of Walker Post, 122, V.F.W., will be held this evening at 8 o'clock in Memorial hall. Important business will be transacted and new members will be initiated. Plans for the Memorial day observance will also be made and a large attendance is expected.

TEXACO GASOLINE THE VOLATILE GAS

(Volatility is the readiness with which gasoline gives up its power)

Every time the gasoline mixture in your motor cylinders gets the spark—if it's Texaco—you get the full power-value for every fractional part of a cent that gasoline cost.

There's more power and mileage in Texaco Gasoline—and even in idling it shows up. This is what you'll notice with sluggish gas: 1-4, 2, 3, 1-4-2, 3-1-4, 2-3—and you expect the next stroke will be the last. With Texaco Gasoline in the tank, it's 1, 4, 2, 3, 1, 4, 2, 3, 1, 4, 2, 3 and so on indefinitely.

Texaco Motor Oils are heavy-body lubricants and are distinguished by their clear pale color. Light, medium, heavy and extra-heavy—they fit all cars and all conditions. You will find them wherever you see the Texaco red star.

WOMEN OPEN CONVENTION

National League of Women Voters in Session at Baltimore

"Education of Citizens the Safeguard of a Republic," Keynote of Convention

BALTIMORE, April 25.—"The education of citizens is the safeguard of a republic." This motto, printed on the convention program, is the idea which Mrs. Maud Wood Park, president of the National League of Women Voters, in her opening address at the third annual convention of the league here today, said she would like to put before the convention as a guide for its deliberations.

"Because this government by the people," she said, "was founded to bring about the safety and happiness of the citizens through a political system clean, efficient and just, and because the women of the United States have at this time a peculiar opportunity given in their recent enfranchisement to help in the full realization of this great ideal, we are banded together to do our part. That I take to be the underlying faith of the League of Women Voters."

"Women by virtue of their distinctive experience in life," said Mrs. Park, "have a tendency to see affairs of government in such terms as education, public health, public morals, the human development made possible by a peace-loving and forward-looking civilization. This is the point of view of social welfare, and it should be reckoned with quite as fully as should the point of view of business interests."

Presentation of committee reports and recommendations consumed virtually all of the first day's session.

RUSHES RAT TO HOSPITAL

Boy's Pet Has Tail Virtually as Good as New, Thanks to Surgeon

SAN FRANCISCO, April 25.—Jerbo, a pet rat belonging to 13-year-old Donald Myatt, has a tail today that is virtually as good as new, thanks to a surgeon at the Emergency hospital.

Late yesterday Donald came to the hospital when the staff was busy and pleaded tearfully that his Egyptian rat be given treatment. The tears finally won.

The boy's version is: "I had my rat at a pet show. A cat hissed at him while I was holding the tip of his tail. He jumped so hard the skin peeled off."

The skin was sewed back on, according to a report from the hospital. The record reads: "One rat—re-tailed."

SEEK CONFERENCE IN TANNERY STRIKE

It is believed at the strike headquarters of the employees of the American Hide & Leather Co. that a conference between the officials of the company and the strikers will be arranged for some time in the latter part of this week. It was reported at headquarters that one of the men in charge of the local plant is endeavoring to bring about the conference with either the president of the company or C. J. Lilly, general manager for the New England district. Whether or not he will be successful in his work is not known, but it is felt that if a conference is held it may bring about a settlement of the strike, which was started five weeks ago today.

Rev. Robert Bateman of Peabody, who some time ago delivered an address to the strikers, will be the principal speaker at a mass meeting to be held at strike headquarters in Central street tomorrow afternoon at 2:30 o'clock. It is said that the reverend gentleman has some very important matters to discuss with the men who are protesting against a 10 per cent reduction in wages.

TO CALL TROOPS IF NECESSARY

Judge Johnson Determined to Stop Lawlessness in Mountains of Kentucky

Issues Warrants for Arrest of 200 Residents of Mill Creek

Feudists of Clay County, Join Hands With Civil Authorities in Clean Up

MANCHESTER, Ky., April 25.—Feudists of Clay county, who a few months ago were ready to shoot opposing clansmen on sight, have joined hands with each other and with the civil authorities to clean up Mill Creek, following the action of Circuit Judge Hiram J. Johnson, who yesterday issued warrants for the arrest of 200 residents of the mountain territory. All persons in the Mill Creek territory over 12 years of age will be taken into custody by the posse in Judge Johnson's drive to stop lawlessness in the mountains of Kentucky.

Posse men are combing the hills and bringing in prisoners. Judge Johnson's instructions were "to bring the men in" and he announced that he was going to clean up Mill Creek if it required the assistance of 1000 soldiers.

The trouble about Mill Creek began Thursday when John Taylor, who had been summoned as a witness in a land suit, was shot to death from ambush. Deputy Sheriff Pitt Stivers later that day, was sent into the neighborhood with four others to serve warrants for persons wanted in connection with the shooting and other cases. They were attacked by 15 men in ambush. Mr. Stivers was shot from his horse and the others escaped only by hard riding. Deputy Sheriff reported that "moonshining is rampant in the Mill Creek section."

A conspiracy among the Mill Creek residents to thwart the law has existed several months, they declared.

Picket Shot by Deputy Sheriff

Almeida, who is about 27 years old, stopped a colored man and tried to dissuade him from going to work. An altercation followed which attracted a small crowd to which the attention of the deputy sheriffs was directed. They rushed to the scene but in the meantime the colored man had got away from Almeida. The sheriffs tried to disperse the crowd and as they did not do fast enough several shots were fired in the air and on the ground. This had the effect of making the crowd run and it was said that one of the shots fired at the ground ricocheted and hit Almeida on the back of the neck. Those near the scene say that Almeida ran a distance of over 200 feet after he was hit before he fell.

CABINET MEMBERS TO HOLD OUTSIDE JOBS

OTTAWA, April 25.—After a long and bitter debate the House of Commons early today defeated by a vote of 142 to 89, the resolution calling on cabinet members to resign from all outside business directorships.

Augustus W. Deland, who was arrested during the trouble that preceded the shooting was arraigned on the charge of revelling and on pleading not guilty, was held in \$500 for trial on May 8.

Almeida again changed his mind and pleaded guilty. Judge Jack, in sentencing him to 60 days in jail, said: "You have no more right to stop persons going to work than you have to stop me."

MORGAN AGREES TO HELP ON GERMAN LOAN

NEW YORK, April 25.—J. P. Morgan yesterday announced his acceptance of the Allied Reparations Commission's invitation to become a member of the committee which will consider flotation of an international loan for Germany. He will sail for Europe about the middle of May.

Mr. Morgan indicated that the proposed loan to Germany would be a popular loan to which the people of the United States and other allied countries would be asked to subscribe. With good terms and on good security, he said, he believed such a loan could be placed.

"America, of course, is very important in this foreign loan situation," he said. "This question I am asked is whether, and if so on what terms, a German loan can be placed in this country."

"I think I can be useful and I am going over about the middle of May, personal matters preventing me from sailing before that time."

Mr. Morgan said he cabled his formal acceptance of the invitation last night.

Mr. Morgan declined to estimate what amount of German bonds could be sold in the American market, much depending, he said, upon the terms and the security offered. However, he expressed the opinion that, if the terms were satisfactory, conditions for such a loan were excellent at this time.

Asked whether he thought the loan would clear away the chief obstacles to Europe's rehabilitation, he said:

"Now you are getting into politics. 'My interest in the situation,' he explained, 'is merely to advise what the United States can do to help out the loan plan.'"

Withdrawal Alternative

Continued

Press)—Foreign Minister Tchitcherine of soviet Russia declared to the Associated Press this morning that it was allied resistance to the Russian principle of nationalization which was blocking the conference here.

"It is obvious," said M. Tchitcherine, "that the only serious obstacle to peace with Russia and general reconstruction are the pretensions of a few former owners of property in Russia."

DRIFTING TOWARD ROCKS AGAIN

GENOA, April 25.—In view of differences over the name of the Russian minister of foreign affairs, who is here as head of the Russian delegation, inquiry has been made as to whether it is "Tchitcherine" or "Chicherin." The minister prefers to have his name spelled Tchitcherine when it is to be read by English speaking people, with the accent on the second syllable.

Two More Killed

BELFAST, April 25.—Two men, one of them 78 years old, were killed last evening in East Belfast by snipers.

IF YOU WANT TO EXCHANGE ANYTHING TRY A SUN AD

GENOA, April 25.—(By Associated Press). The Genoa conference is drifting toward the rocks again. Whether it can be kept from wreckage depends upon the possibility of adjusting the new demands of the Russian soviet delegates with the position of the allied governments who declare they will steadfastly stand by the resolutions adopted at Genoa on which the conference is founded.

The situation is made more critical by the French premier's frank warning in his address at Bar-le-Duc yesterday that France will withdraw from the conference if she is unable to see that the ideas expressed by the French cabinet before parliament can triumph.

The French demands include maintenance of the war reparations figures, disarmament of all disarmament discussion and no changing of existing treaties at Genoa. In addition, France insists on rigid adherence to the Cannes resolutions which call for the payment of Russia's pre-war debts and the restitution by the soviet government of property in Russia.

The conference of experts on the Russian question broke up yesterday and adjourned sine die because the experts representing the powers found the Russians new set of proposals absolutely in contradiction with the soviet note accepting the allies' terms as a basis for future deliberations.

Yesterday the Bolsheviks announced their declaration to restore private property because everything was nationalized in Russia, but in their note of acceptance, they voiced willingness to restore such property or indemnify the owners provided the country's war debts to the allies were cut down and financial help for Russia forthcoming.

Instead of accepting the allies' demands for the payment of war debts, with the understanding that these debts be scaled down and the arrears in interest either postponed or remitted in part, the Bolsheviks came in with an entirely different proposition. They asked the complete annulment of all war debts.

The soviet spokesman asked for a moratorium of 20 years on pre-war debts and the cancellation of the interest, according to the allied version of the meeting. This cancellation was to apply to both the past and to the period of the moratorium.

Finally, the Russians made clear that in refusing to restore private property in Russia, this would not imply any surrender by Russian citizens of their rights to hold property in foreign lands, "bourgeoisie countries" where the right to possess property went with the bourgeoisie system.

Such, said the Bolsheviks, were their terms, but they could only grant them on condition that the powers represented at Genoa would first agree to recognize the Russian soviet government and second it adequate financial help for its proper economic reconstruction.

The story went the rounds of the delegations last night that the Bolsheviks will hold the United States morally responsible for the presence of the Japanese troops in Siberia, since the Japanese occupied the territory not only jointly with American troops but actually at the request of the American government.

NEW OWNER FINDS STILL IN CELLAR

NASHUA, N. H., April 25.—The Charles Holmes house in South Merrimack, which has been unoccupied by any tenant for two years, was sold last week. The new owner went down cellar yesterday and found a modern still in operation, 200 gallons of mash and great quantities of calais and sugar, but no owner. Police are looking for the home maker. It is thought that the men came from Nashua and worked in secret nights.

Divorce is increasing rapidly in England, especially among the poor.

DEMAND COL. MAJOR BE DISCHARGED FROM ARMY

WASHINGTON, April 25.—Discharge from the army of Lieut. Col. Duncan K. Major, former chief of staff of the 26th (New England) division in France, and now aide to Gen. Pershing, was demanded before the senate military committee today, by a delegation of 22 New England National Guard officers, headed by former Col. Gen. Edward L. Logan and Charles H. Cole.

Spokesmen for the delegation, which appeared before the committee sitting in executive session on the recently submitted nomination of Major to a colonelcy were said to have charged that officer was unfit for command, subordinate and otherwise not worthy of a place in the commissioned personnel of the army.

Another reported charge made against Col. Major was that he is prejudiced against the National Guard. As chief of staff of the 26th division, Col. Major served under Major General Edwards.

The commission's study of the postal service as relating to the farmer was said to have convinced it that "increased postage rate on second class mail matter, notwithstanding reductions of fourth class matter (parcel post) has been particularly burdensome" upon farm publications.

Head of Athlone Brigade Slain

the hotel where the mutinous troops have their headquarters. He was suddenly confronted by a group of armed men who ordered him to throw up his hands.

The general, being alone, complied and, while his arms were raised, the assassins deliberately fired into him. Several of the mutineers' officers were arrested.

21 Catholics Slain

BELFAST, April 25.—(By Associated Press)—The Belfast Catholic protective committee last night sent a message to Winston Spencer Churchill, secretary for the colonies, asserting that the "war on Catholics" in northern Ireland was continuing.

The committee also issued a statement saying that it is non-political, but that it represents the Catholic professional and business life of Belfast. According to the statement, the casualties since the signing of the pact between the northern and provisional governments on April 1 are as follows:

Catholics murdered, 14 men, 3 women and 4 children; attempted murders, 27; wounded, 39; houses looted and burned, 75; houses bombed, 5; families evicted, 10; persons homeless, 357.

Men Who Fled to Tree Drowned in Flood

FORT WORTH, Tex., April 25.—The Trinity river stood at 33.5 feet today next to the highest ever recorded here. Seven inches of rain fell last night, a record. The levees here are holding. The municipal water supply is down and electric lights are out. Two men who had taken refuge in a tree at the foot of Florence street were drowned when the tree was swept away.

Seattle Bars All Arbuckle Films

SEATTLE, April 25.—The city board of theatre censors here has decided to bar all Roscoe Arbuckle films offered for exhibition in Seattle.

Premier Lenine Undergoes Operation

RIGA, Latvia, April 25.—(By Associated Press)—Premier Lenine of soviet Russia was operated on yesterday, says a report from Moscow today. A bullet which had troubled him for three years was extracted from his side. Last account were that the patient was doing well.

Negotiating Separate Wage Agreements

SPRINGFIELD, Ills., April 25.—Negotiation of separate state wage agreements by striking coal miners in Kentucky and Tennessee was announced today by Frank Farrington, Illinois president of the United Mine Workers. Separate wage agreements by locals in Illinois are imminent, he added. In Alabama, he said, the state union officers have instructed members to continue at work.

MATRIMONIAL

Downey, a brother of the groom. At the close of the ceremony a reception was held at the home of the bride's parents, Mr. and Mrs. Thomas J. Hession, 178 Perry street. After an extended honeymoon trip the couple will make their home in Lonsdale avenue, Ashmont.

INTERIOR OF THE SHOWROOM OF NEW BUICK HOME.

Splendidly Built and Equipped Structure in East Merrimack Street a Monument to the Business Progressiveness of Fred B. Emerson and Milo W. Hale—Plant Covers Large Area and Will Be Devoted Exclusively to Buick Sales and Service

The Lowell Buick Co., expanding as it feels justified to do in face of the growing popularity of its products in this city, tomorrow begins a new chapter in its business accomplishments when its magnificent new home, including salesrooms and service station, in East Merrimack street, will be open to public inspection and actual business.

Not only does the building itself stand as a true and splendid product of architectural and contractual accomplishment, but in a more personal sense, it is a triumph for the company as so well represented by Fred B. Emerson and Milo W. Hale.

It was in 1913 that these two Lowell men took over the Lowell Buick Co. from Harry J. Noyes and the new plant, dreamed of and planned for then, has become a reality solely because of their strict adherence to the unwritten code of fair business dealings, their progressiveness and their stick-to-itiveness, plus the magnetism of their own personalities that they successfully wove into the fabric of their business.

Both Mr. Emerson and Mr. Hale are veterans in the automobile game. The former went with the Lowell Taxicab Co. in 1909 and with Mr. Hale went in-

to the Lowell Automobile Co. two years later. Then in 1913 they purchased the Lowell Buick Co. from Mr. Noyes.

Facing the Memorial auditorium the new Buick building, touching elbows with the Cadillac building, is a most welcome addition to that section of the city and on a street that many people like to think of as Lowell's Automobile Row of the future.

Within and without the new building possesses every detail of workmanship and accommodation sought for in a structure of its type and adapted for automobile uses. It has been in the process of construction for some little time and its opening purposely has been delayed until such a time that it was finished to the last degree.

The building covers a large area and in addition to its main frontage and entrance on East Merrimack street, it fronts on both stretches of Davidson street, that executes a 90 degree turn at the building's north-west corner. It is of substantial wall construction, faced with white, marble and granite. The main entrance on East Merrimack street is spacious and pleasing to the eye and is being

enhanced by the laying of a new granite sidewalk.

The Salesroom

On entering the building one steps at once into the main salesroom, with lofty ceiling, supported by four massive pillars; fawn colored walls with panels of darker shade and beautified by attractive electrical fixtures hung by brass chains. The room is 75 feet long by 26 feet wide and will accommodate many models of cars. In the rear, on either side of a beautiful staircase, with winding mahogany balustrade, are rest rooms for men and women. The staircase leads to a mezzanine on which are the company offices, Mr. Emerson's on the right and Mr. Hale's on the left, and with the clerical department in between.

The sales room is large enough to show 14 cars comfortably. Tomorrow there will be nearly this number of models on the floor, so arranged as to allow for easy and thorough inspection. There will limousines, sedans, coupes and touring and roadster types of both four and six cylinder motor plants. As was on exhibit at the recent Boston show, there is a cut-out chassis on display allowing for an intimate glance into the entire system of

operation and in front of one of the main windows is the beautiful new sports model finished in maroon, with nickel trimmings and carrying every possible accessory. This car already has been much admired and seems destined to become extremely popular.

The beauty of the entire display is enhanced by natural light which floods the large room. It streams in through ornamental skylights and even on the

Splendidly Built and Equipped Structure

Continued

dullest sort of a day the interior never will seem unfriendly.

A comfortably pitched ramp runs down to the used car salesroom in the rear. It will be for the display of used cars only and its dimensions of 30 by 74 feet are adequate to care for more than a score of machines.

The Repair Shop

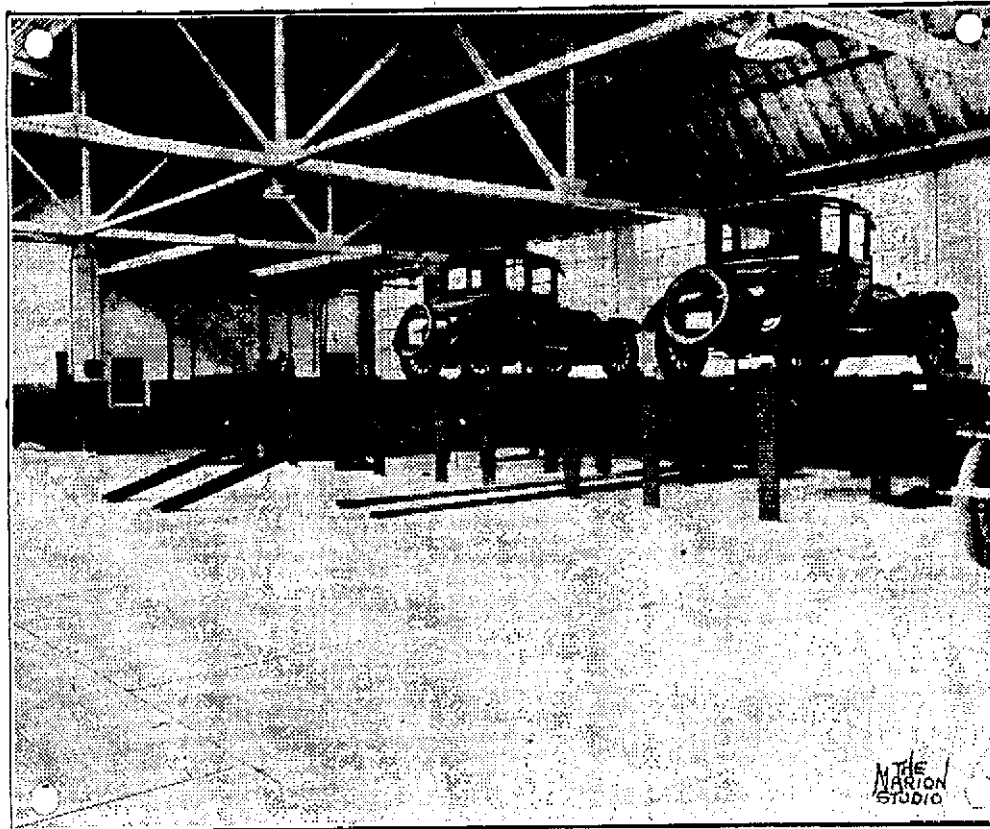

Turning to the right from the used car room one passes into the repair shop or service room, 128 feet long and with a width of approximately 80 feet. Of faithful mill construction with overhead steel girders, the room is of unusually large area, its size being accentuated by the absence of any sustaining posts. Machinery has been installed to meet all the demands of the trade and here it will be possible

to give the maximum of repair service in the minimum of time.

Parker Young who has been in charge of Buick repair service in Lowell since 1906, is at the head of the service personnel in the new building. Under his direction a score of men will be ready to give personal attention to Buick cars at all times. No plans have been made to attempt a transient garage business and no place has been set aside for storage. It is Buick sales and service exclusively.

For the past several years the Buick has maintained its service station in Arch street, but now that the new building is ready for occupancy, the plant there will be abandoned. That part of the building in Appleton street that has been used by the company as a salesroom, will be maintained, but only as a storage plant.

One corner of the repair shop has been partitioned off as a parts room, with the walls lined with steel bins that also extend in rows in the center of the floor. A Buick motor complete, may be picked, a part at a time,

THE REPAIR DEPARTMENT OF NEW BUICK HOME

from the bins and assembled equipment just outside the door.

Sufficient space has been left in Davidson street to allow for gasoline and oil service stations, several of which have been installed. In the basement of the repair shop there is a splendid washroom for employees with not only lavatory facilities, but shower baths as well. Each employee has a steel clothes locker in this room, also.

Millard F. Davis was the architect of the building, and in speaking of the completed job today said that it is a structure of which the city may well be proud. "Specifications not only were lived up to," he said, "but in many instances were improved upon."

The general contract was held by J. W. Douglas. His men took care of all the brick work, cement work, runs, walks, etc. The trusses and heavy iron work were done by the Donnelly Iron Works. The J. L. Douglas Co. did the roofing, galvanized iron work and skylights, while the salesroom special flooring was laid by the company of New York. Emerson & Norris Co. of Brighton had the contract for the made stone and cement work. The painting was done by E. C. Pearson and the stairwork by the Charles Holmes Co. Pratt & Forrest furnished the inside wood finish and lumber. Hobson & Lawler installed the heating plant and the plumbing was done by John E. Drury. Tucke & Parker did the electrical work and steel sashes were furnished by the Truscon Steel Co. of Boston.

SPECIAL POLICEMEN

Charles H. Wheeler, Parker H. Young and Robert Hall have been appointed special policemen at the new Buick garage on East Merrimack and Davidson streets, where they are employed as watchmen or caretakers by the Lowell Buick Co.

MR. LAPORTE SURPRISED

Philippe G. Laporte, a registered druggist in the employ of the Lowell pharmacy, who recently purchased the Morand drug store in Mammoth road, was agreeably surprised last evening at the home of Mr. Maurice Brassard in Varney street, when the boys of the pharmacy gathered to congratulate him and offer him their best wishes in his new venture. As a mark of esteem on the part of his fellow workers, Mr. Brassard presented Mr. Laporte a purse and a box of cigars. Entertainment numbers were given in the course of the evening and a buffet luncheon was served.

Weeks Pleads for Big Army

Continued

Weeks said, "There is no evidence of foreign designs against us. We must, however, recognize that throughout the greater part of the world a condition of instability prevails which renders the permanence of world peace uncertain."

"It is certain that to remain weak and unprepared in the face of such a situation is to invite aggression. It is moreover, essential not only that we maintain a reasonable state of preparedness, but that it should be a matter of international knowledge that we are so prepared."

The army needs "stability," more than anything else, Mr. Weeks said, recognizing the double cut in the strength of the force made last year and the consequent reorganizations required.

"If this situation is to continue from year to year," he added, "it must have a serious effect upon the development of our whole system of national defense."

Mr. Weeks said the house bill made "adequate provision for the healthy growth of the national guard and for its proper field training." As to the

organized reserves, he pointed out that it was sought in peace times only to create the officer framework and the annual training of the reserve officers, on whom the war-time machine would depend. The war department had asked only funds to train 20,000 of the 65,000 reserve officers during the coming year as "no adequate provision" for keeping up their training since the war had been made, he said.

Mr. Weeks said he had been much impressed with the testimony already before the committee as to the physical, moral and educational value of military training. Statements by governors, educators and others on the point had been "most impressive," he said, and in his opinion "these collateral non-military benefits alone justified the department's training plans and the expense they involved."

The army service school system was of vital importance in any national preparedness plan, the war secretary declared.

"It is an interesting fact," he added, "that although our army school system was only partially developed before the war, its graduates furnished a very large percentage of those officers who were most conspicuously successful in the days of actual war."

As to the gas warfare, work of the army, Mr. Weeks said, that while ultimate abolishment of such warfare might come by international agreement, "it would be fatal for us to give up the series of experiments and investigations which were conducted during the war and have been carried on since" until that moment had arrived. As to aviation, he expressed the opinion that the provision for its development in the army should be larger than the department was now asking, adding:

"I do not hesitate to predict that in any future war its importance will be greatly increased."

Drops Knife When Officer Pulls Revolver

LYNN, April 25.—A baker going to his work early today saw a man coming out of the Boston & Maine railroad station, and called Patrolman John P. Hines. When the man saw the officer, he is alleged to have drawn a knife and held it high above his head. He dropped it, however, when Hines drew a revolver. At the station the man gave the name of Charles A. Ward, 22 years old. He told the police he had ransacked the residence of Benjamin N. Johnson earlier in the night, but had taken nothing. He was charged with breaking and entering and attempted assault. The police said he had a record.

Want Duty on Shingles Restored

WASHINGTON, April 25.—Restoration of the house tariff bill duty of 50 cents a thousand on shingles was asked of the senate finance committee today by the 25 senators of the republican agricultural tariff bloc. Shingles are now on the free list.

More Facts You Should Know!

- 1 For the calendar year, January 1, 1921, to January 1, 1922, Buick built and actually sold over 80,000 automobiles.
- 2 These sales for the calendar year 1921 exceeded by over 12,000 cars the sales of any automobile manufacturer having a six-cylinder automobile in its line.
- 3 These sales for this period likewise represent a volume of business greater by over \$9,000,000 than the sales of any other automobile manufacturer excluding Ford.
- 4 These figures are taken from official reports and are absolutely reliable.

All bids submitted to be in sealed envelopes, plainly marked on outside, kind of material upon which bid is submitted.
EDWARD H. FOYE, Purchasing Agent.
Lowell, Mass., April 21, 1922.

Adventures of the Twins

THREE QUESTIONS

"ARE YOU FRIGHTENED?" ASKED THE MOUNTAIN SUDDENLY.

The Mountain That Wasn't There acted in the stillest fashion.

First it stood on its head, then after awhile, tiring of that, it spun around dizzily for several minutes. When it had righted itself it stayed put for a few seconds, then suddenly, without any warning it whizzed by as though it were on rollers and stood behind the Twins.

"Why, we're past it," laughed Nancy. "We must be in the Kingdom of the Didderevers at last. The Fairy Queen said it was just beyond the Seven Mountains and this is the seventh."

"But look!" pointed Nick.

The mountain had made a crazy circle and swung around in front of them again. "Then it seemed to disappear altogether."

"I wish the old thing would stay away for good," grumbled Nick. "Where do you suppose it's gone?"

Nancy pointed to a tiny spot in the distance. "There is a light," she said.

"Say!" said Nick, suddenly. "When this old mountain can move around the way it does how do we know we were walking all that time in the right direction? We may be 10 miles too far to the right or 10 to the left. There isn't any path to guide us here."

At that the mountain made a quick swoop right toward them like a person on roller skates, or like an enormous express train. It looked as though the twins would be flattened out in another minute like two little pancakes, but it stopped right in front of their noses, not a yard away.

"Are you frightened?" asked the mountain suddenly.

"No, if you mean us," answered Nick, bravely.

"Are you mad?" asked the mountain.

"No."

"What are you?"

"Puzzled!" answered the little boy. "We think you've lost your wits."

"That's the answer," said the mountain kindly. "Only I haven't lost my wits. I'm wisest of all. I'm here to try people's patience and you didn't lose yours at all. Here's the path. You may go safely over, children."

Mrs. Frank Vanderlip Sees End of "Boss System"

Mrs. Frank A. Vanderlip

By EDWARD M. THIERRY
SCARBOROUGH, N. Y., April 25.—"The one-man boss system in politics will have to crumble away gradually before woman suffrage."

That is one of the things women may do in politics, says Mrs. Frank A. Vanderlip, wife of the noted banker, and New York state chairman of the League of Women Voters.

The national convention of the league is being held in Baltimore beginning Monday, April 24.

Mrs. Vanderlip laughs at the suggestion that woman suffrage has failed because politics have not been revolutionized overnight.

"I never looked for the millennium," she said. "Intelligent women all over the state are waking up to the fact that if they all study and exchange their experiences with each other, they can master the intricate and difficult subject of government in a few generations."

Choosing the candidates and getting 100 per cent. of the women voters to the polls are a very small part of the duty of women who are willing to work at being good citizens. Women don't rush for public office. They have influenced the national platform a little.

"But this is coming, and slowly the power of political machines will break down. Many women are going into the parties too independent of action to fit into the machine system well. Machines are open to antipathy that, like all autocracy, is based on ignorance or indifference or both. The League of Women Voters is accomplishing one of its great aims in penetrating this indifference."

Mrs. Vanderlip said there was small

TCHECHERIN

Tchecherin, the Russian leader who set the Genoa conference in an uproar, stops to meditate a while in the gardens of the Hotel Imperial at Santa Margherita.

\$100,000 MISSING
Manatee Purnes, only 14, bank messenger, is charged by New York police with throwing \$100,000 into the East river, keeping only \$150.

WON SIXTEEN PRIZES
Meet Mary Louise Tobin, of New Orleans, La., the baby who won 16 prizes during the Baby Milk Drive in New York city.

Daylight saving in Mexico City has effected a great saving in electric power.

likelihood of women trying to build their own political machine, or that a woman political boss would rise, because women will always look ultimately to the human needs, and will not go after selfish power single-mindedly enough.

"Instead of fighting the devil with fire we are fighting him with education," she said.

"In opposing selfish machines, we do not oppose the party system, which is the basis of the government. Two well-balanced parties create wide discussion of principles which result in public opinion based on thoughtful consideration. Most of the members of the L. W. V. belong to political parties."

Mrs. Vanderlip thinks that women will in time be able to improve the efficiency of government because they have, perhaps, the contrary of ignorance and they have not tried political reform and failed, as have many misguided men.

"Besides," she said, "we shall not be hampered by political ambitions."

TEACHERS HEAR DR. FERNALD

Superintendent of Schools
for Feeble Minded Talks
on "Retarded Children"

Law Requiring Examination
of All Children Forms
Basis for Interesting Talk

Dr. Walter E. Fernald, superintendent of the state school for feeble minded children, addressed the teachers of the Lowell district yesterday afternoon at the school on the subject of retarded children.

Dr. Fernald was introduced by Supt. Hugh J. Molloy. He opened his remarks by commenting on the fact that two years ago the legislature passed a law which in substance called for examination of all children who are three years or more retarded. This examination forced the basis of Dr. Fernald's talk. He said that it was divided into mental and physical sub-divisions. He averred the examination was a searching one and that it was classed under ten separate heads, with each head taking in a multitude of questions. The ten sub-divisions are divided into head, body, mind, and spirit. The head division covers the child's development, age, entering school, school examinations, what child is doing at home, how child is getting on with other people, the child's morals, teachers' psychological study, classification.

Dr. Fernald said that a child's mental age was governed by the average work done by the average child at a given age. He drew a parallel between a well cared for and fertilized garden and one that received little or no attention. The child who is cared for will flourish, while the one neglected is apt to show the effects of the neglect.

In commenting on intelligence, the speaker said that the average human being had an average intelligence of between 80 and 110. "Those who have inferior minds, such as honor pupils, will reach as high as 120."

He pointed out that the afternoon's talk dealt only with children of average intelligence and not up to standard. Children who only possessed 80 percent intelligence would know only enough to go to school and occupy seats.

A great deal of time was given over to the explanation of children of advanced intelligence, and the speaker devoted the topic of young children with advanced minds was also touched upon.

In bringing home these points the speaker illustrated with a number of charts especially prepared for the occasion.

One statement which caused a bit of comment was that in which the speaker said that the average 10-year-old child should be able to read a simple sentence with a high degree of proficiency as any of the teachers present. He quickly added that such a statement did not mean that they knew as much as the teachers but that they had reached a certain common plane.

According to facts given out, investigators have never found less than three per cent of defective children in the Lowell grammar schools.

In connection with his work he told of a Lowell girl who had been discharged from an institution by order of a supreme court justice. Dr. Fernald said that he strongly advised against the discharge, as the girl, 14, 15 and 16 years old was the daughter of a family of the most respected in the city.

Dr. Fernald then told many interesting experiences with different people he had met in his work.

LOWELL DISTRICT COURT

Three Liquor Cases Disposed
of Today With Fines of
\$100 Each

Rapid disposal of three liquor cases by Judge Bright, with fines of \$100 each, featured today's session of district court. The three men accused of unlawful keeping or sale entered pleas of guilty, and sentences were imposed forthwith. A continuance in another liquor case, an assault and battery complaint, a larceny charge continued to a later date and the assessment of fines of \$10 each on two drunken offenders completed the day's routine.

John Zouris, for illegal keeping, pleaded guilty and paid a fine of \$100. On a charge of illegal sale, Edward J. McCormack entered a plea of guilty and paid \$100. Said Zouris, for illegal keeping, followed the example of Zouris. McCormack, and paid \$100 on a plea of guilty.

Martin J. Adamski, however, pleaded not guilty, and since an error had been made in the name placed on the sample analyzed, a continuance until May 6 was given.

Martin Rupa, charged with assault and battery, in court a few days ago and received a suspended sentence to the house of correction on condition he would leave town. In court today he promised to do all he could to settle the matter, but the judge said he was unworthy on another chance. However, although the judge was loath to give him any clemency, on an appeal by his wife he was sentenced to five months in the house of correction, suspended for a year, under the care of the probation officer.

George A. O'Neil and Peter B. Hughes, both of Nashua, were charged with drunkenness. The officer who made the arrest and a young man who had been in their company claimed that one of the pair, Hughes, had taken \$10 from the young man, who claimed he knew nothing of the money; that any money on his person was his own. The offenders were ordered to pay fines of \$10 each, and their young companion advised not to travel around with drunks from out of town.

Two complaints of larceny against Theodoras Diamond were continued until Saturday.

CHILD INJURED BY AUTOMOBILE

Mildred Smith, a five-year-old child, was struck and knocked down on Church street this morning, at about 9:55, by an automobile owned by the Boston & Maine Co. and driven by William H. Wiggin. The accident occurred between George and Lawrence streets, while Mr. Wiggin, according to his statement filed at the police station, was going along Church street on the right hand side. The child apparently sustained only minor injuries, but when taken to St. John's hospital by Mr. Wiggin, who was accompanied and prepared for an X-ray picture, this afternoon.

Traffic Officer Frank Murphy was at the corner of High and Andover streets when he saw the machine to which the child was attached, and he pulled it to the hospital. Returning to the scene of the accident, he measured the tracks of the automobile's tires and alleges that from the point where the child was struck, the brakes were first put on to the curbstone where the machine was brought to a stop measured 48 feet. According to the report submitted by Mr. Wiggin, the child was struck about an hour at the time of the accident.

WHITE CROSSING LINES MUST BE RENEWED

The white crossing lines for pedestrians in Merrimack Square have practically disappeared under the stress of vehicular traffic and unless they are renewed at once will be entirely obliterated.

It is the opinion of Traffic Supervisor Edward Connors that such lines painted at any busy downtown intersections will only remain visible for a certain length of time and if they are to be used as intended, will have to be renewed every two weeks. This would not be much of a job, however, and its cost would be trivial in comparison to the great relief afforded by the presence of the guide crossings.

White lines now have been painted in at Tower's corner and it is planned to put in a system at the intersection of Central, Prescott and Market streets.

While guide lines of similar size and character now are in general use on all state highways in this neighborhood and as a rule their brightness lasts during a whole season, but these lines do not get the wear of traffic, for they are more in the sense of boundary markers and as such are respected by motorists. The lines on the downtown streets, however, are crossed daily thousands of times by all sorts of vehicles and of course suffer in consequence.

DEATHS

WIFE—Mrs. Ella M. Rix died recently in Moulton hospital in New Jersey. She was the wife of John Rix, a well-known Lowell citizen. Mrs. Rix was born in Lowell in 1855 and for the past three years made her home in Plainfield, N. J. She was the widow of Dr. Frank R. Rix, who for several years was musical director in the Lowell schools. He afterward became musical director of the schools in New York city. He died on March 13, 1919. Mrs. Rix for some time made her home with her daughter, Mrs. Helen Rix Tyrrell of Waltham, N. J.

SUNDAY—Mrs. Helen A. Gates died Sunday morning at her home, 13 Myrtle street, Boston, after a brief illness. Mrs. Gates was 69 years, 1 month and 13 days old. She leaves four sons, Gilbert, of Abington, Parker, of Lowell, John of Concord, and Frank of Leicester, and also three grandchildren, all of Boston.

CRANE—Frank M. White, a member of the firm of White, Son & Co., died Sunday at his home in Winchester. His wife, formerly Miss Blanche Polson of Lowell, and daughter, Mrs. Gardner, of Abington, Parker, of Lowell, and three grandchildren, all of Boston.

CRANE—Mrs. Bridget Crane, widow of Daniel Crane and a well known resident of this city died yesterday at her home, 517 Westford street, aged 73 years. She was the daughter of the late John Boyle and came to Lowell when only three years of age and had resided here ever since. Mrs. Crane owned considerable real estate and dealt extensively in this line for many years. She leaves one son, Eugene P. Crane, who was associated with her in real estate transactions, and four grandchildren. Mrs. Crane was a member of the blessed Virgin sodality as well as of the League of Catholic Women.

DEVINE—Mrs. Mary Devine, a former member of St. Peter's parish, died last evening at the home of her son, Joseph P. Devine, 190 Perry street, after a long illness. She was the daughter of Mrs. Timothy P. Donahue and Mrs. John P. Sheehan. Her sons, Joseph P. and John J. Devine, two brothers, and her daughter, Mrs. Mary Devine, one nephew, Frank Brennan, and 13 grandchildren. The body was removed to the home of her daughter, Mrs. Timothy P. Devine, 190 Perry street, by Undertakers O'Connell & Fay.

CHAMPAGNE—Gerard, aged 2 months and 12 days, infant son of Alphons and Maria Champagne, died last evening at the home of his parents, 14 Amherst street, North Chelmsford.

GREENE—Mrs. Annie M. Greene, a well known resident of this city and a devoted attendant of St. Michael's church, died last evening at her home, 184 Chapman street, Dracut Centre, after a long illness. Deceased leaves to mourn her loss a sister, Miss Jennie Greene.

ORGANIZING BOY SCOUTS MAYOR WRITES TO CONLEY

National Representative of
Boy Scouts of America
Now in Lowell

With a view to organizing the Boy Scout troops of this district, W. E. Brown of Boston, national representative of the Boy Scouts of America, has been in the city for the past ten days. Tonight, in the chamber of commerce, he will meet parties interested in the movement and discuss the formation of a council here. R. N. Berry of Boston, New England representative, will also be present and make a few remarks.

In the entire country there are 12 regions of Boy Scouts, divided in much the same manner as the federal reserve banks with regard to districts. New England is considered region one. Included in the Lowell district is Dracut, Chelmsford, Billerica, Tyngsboro and Newbury.

The Lowell district, at the present time, is about the only one in the country which is not organized and without a council. With a population of about 160,000 to draw from, there should be a council in the Lowell district of about 1000 scouts, according to Mr. Brown.

At the present time there are only seven troops in this city. All operate independently of one another and do not work in conjunction to any great extent. About three years ago there were 20 troops in Lowell which were under the direction of Scout Executive Reed R. Ripley. Following Mr. Ripley's retirement from the work no one was appointed to take his place with the result that interest in the work dropped to some extent.

Mr. Brown came here as the result of appeals sent to the Boston office by many local people interested in Boy Scout work. He has been about the city and district investigating the conditions in general. He finds that the troops, what few remain, are pretty well disorganized. He told of visiting one troop's exercises in which he failed to see an American flag displayed despite the fact that the opening event on all Scout programs calls for a pledge of allegiance to the flag.

If the meeting tonight creates enough local interest Mr. Brown will plan for a reorganization of this council. An executive scout leader may be chosen and assigned to this district. Pennsylvania, the field from which Mr. Brown has recently returned, is in a flourishing condition as far as this organization is concerned.

Mr. Brown was present last night at the funeral given by Chelmsford Street Baptist church, troop pastor, Rev. Elmer E. West. The troop presented to Rev. Mr. West a book of camp pictures and a dictionary stand. Mr. Brown outlined the work of the scouts and urged organization with an idea to establishing a council here.

WARSHIP ORDERED TO SAIL TO CHINA

MANILA, April 25.—The flagship Huroon of the Asiatic squadron received rush orders yesterday to sail to China because of disturbed conditions there. All officers and men were ordered aboard the Huroon last night preparatory to departing this afternoon.

"HONEY" HAZZARD WANTS FREEDOM

Arthur G. (Honey) Hazzard yesterday filed a petition in the equity court at East Cambridge, asking to be released from confinement in the East Cambridge jail, where he was sent on April 2, after being adjudged in contempt of court for failure to comply with the court's decree. He states that he is without means of any sort and that it is impossible for him to comply with the court's order.

POLICE TO HOLD STATE CONVENTION HERE

The state convention of the Massachusetts Police association is to be held in Lowell on Oct. 18 and 19 in the new auditorium, and for this occasion, the 21st annual convention, plans are already being outlined to make it the biggest and best in the organization's history. All police chiefs in the state and delegates from every city are to be here, and the convention's proceedings will be marked by speeches from three or four members of the state judiciary.

Delegates and guests are expected to arrive in Lowell on the morning of Oct. 18 and the first session will begin at 11 in the afternoon. At 7:30 in the evening the annual banquet and governor's night will be held, with Governor Cox as the guest of honor. Acting Superintendent MacBryne yesterday addressed a letter to the members of the association, inviting him to attend and participate. Edward Plummer went to Boston this morning to see the governor by appointment, when he will present the acting superintendent's letter and an invitation from the association. It is planned to have a band concert at the city hall in the afternoon, and also a great deal of the police.

Superintendent MacBryne has suggested to the committee on arrangements that the city council be invited to attend the banquet, and action will be taken later.

On Thursday morning the present plans call for automobile tour of the city, and the first session will be held in the afternoon. The tour will be followed by the closing session in the afternoon.

STERNBERG PASSED WORTHLESS CHECKS

In connection with the capture last week of William J. Sternberg, who was found rambling offices in downtown buildings, Charles M. Spitzer, cashier of the First National bank of Rockville, Conn., has written the superintendent of police, congratulating the local officers on their good work. Mr. Spitzer says that Sternberg, a former resident of Meriden, Conn., drew money at the Rockville bank on checks which were found later to be worthless, and offered to give any information needed as to Sternberg's record in that section.

Acting Supt. Thomas MacBryne answered the letter this morning, telling the Connecticut man of the capture and disposition of the alleged burglar.

ROTARIANS WILL HEAR ATTORNEY GENERAL

Lowell Rotarians will gather at the Vesper Country club tonight to listen to Attorney General J. Weston Allen, engaged as an after-dinner speaker by the local club. The Rotary club, indeed has been fortunate in its speakers and the coming of the attorney-general, who is being mentioned as a potential candidate for more than one high office in the commonwealth, is being greatly anticipated.

After leaving the country club the attorney-general will go to the First Congregational church where the Town Men's club will hold an open house in his honor, to which all men are invited.

TWO INJURED IN AUTO ACCIDENTS

While crossing Middlesex street near the corner of King street late yesterday afternoon, Dan McCarthy of 31 Thorndike street was struck by an automobile operated by Morris Babofsky of 32 Bates street and was slightly injured. He was treated at St. John's hospital.

A boy named Malle and residing at 13 Talley avenue received injuries to his nose and eye shortly before 6 o'clock last evening when he was struck by an automobile operated by Clarence B. Nichols of 176 Pleasant street. The accident occurred in the North street where the little fellow was playing in the street with companions.

FUNERAL NOTICES

CRAWLEY—The funeral of Miss Cawley will take place Wednesday morning from her late home, 85 Rogers street, at 9 o'clock. At the immediate interment will be at St. John's church at 10 o'clock. Burial will be in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers O'Connell & Fay.

FLANN—Died April 24, at his home, 8 Stevens street, Thomas J. Flann, husband of the late Margaret M. Flann. The funeral will take place Wednesday morning at 8 o'clock from the house and a funeral high mass will be sung at St. Patrick's church at 10 o'clock. The body will be in St. Patrick's cemetery in charge of Undertakers James P. O'Connell & Sons.

SAUNDERS—Died in East Teckbury, Abner P. Saunders, aged 92 years. Funeral services will be held Thursday at 2:30 p. m. from the undertaking parlors of Louis Farmer, Lee street, Teckbury.

CRANE—The funeral of Mrs. Bridget Crane will take place Thursday morning at 8 o'clock from the house, 517 Westford street, at 9 o'clock. Solemn high mass of requiem at St. Michael's church at 10 o'clock. Interment will be in St. Patrick's cemetery. Undertaker Peter H. Savage in charge of funeral arrangements.

DEVINE—The funeral of Mrs. Mary Devine will take place Thursday morning from the home of her daughter, Mrs. Timothy P. Donahue, 222 Moore street, at 8 o'clock. At 10 o'clock, high mass of requiem will be celebrated. Burial will be in the family lot in St. Patrick's cemetery. Funeral arrangements in charge of Undertakers O'Connell & Fay.

GREENE—The funeral of Mrs. Annie M. Greene will take place Thursday morning at 8 o'clock from her late home, 184 Chapman street, Dracut Centre. High mass of requiem at St. Michael's church at 9 o'clock. Interment will be in St. Patrick's cemetery. In charge of Funeral Director James W. McKenna.

DEATHS

WIFE—Mrs. Ella M. Rix died recently in Moulton hospital in New Jersey. She was the wife of John Rix, a well-known Lowell citizen. Mrs. Rix was born in Lowell in 1855 and for the past three years made her home in Plainfield, N. J. She was the widow of Dr. Frank R. Rix, who for several years was musical director in the Lowell schools. He afterward became musical director of the schools in New York city. He died on March 13, 1919. Mrs. Rix for some time made her home with her daughter, Mrs. Helen Rix Tyrrell of Waltham, N. J.
